## Foreword

This Report was coordinated by the Human Rights Law Centre, Kingsford Legal Centre, Indigenous Peoples Organisation–Australia, and Community Legal Centres Australia.

The process involved over 100 contributing organisations across Australia and it reflects a point-in-time snapshot of many of the most pressing human rights issues in Australia.

The report applies an intersectional lens, in recognition that human rights are interdependent and indivisible and that violations are compounded for people and communities that experience systematic exclusion or oppression based on factors such as race, ethnicity, gender, socioeconomic status, religion, disability, LGBTQIA+ identity or geographic location.

The report makes recommendations for steps Australia should take to improve its human rights record.

Throughout the development of this report, a key concern raised by NGOs was the lack of progress in implementing recommendations from Australia's previous three UPR cycles.

In endorsing this report, NGOs across Australia are calling on Australia to meaningfully engage in the UPR process and uphold its human rights obligations to protect the rights of all people.

## Constitutional, Legislative and Institutional Framework

1. The Australian Constitution and its political and juridical institutions remain racially biased against Aboriginal and Torres Strait Islander Peoples.<sup>1</sup> Australia has failed to establish a Makarrata Commission to enact truth-telling and negotiate a treaty.<sup>2</sup> Consequently, Australia fails to meet its obligations under UNDRIP.<sup>3</sup>
2. **Australia must coordinate with Aboriginal and Torres Strait Islander Peoples to establish a national action plan and an Indigenous independent monitoring body to implement UNDRIP, within 12 months.**<sup>4</sup>
3. **Australia must establish a Makarrata Commission to supervise negotiations on a national treaty and truth-telling, within 18 months, to recognise the self-determination of Aboriginal and Torres Strait Islander Peoples.**<sup>5</sup>
4. **Australia must establish reparations for Stolen Generations.**<sup>6</sup>
5. Australia's fragmented approach to human rights fails to ensure equal protection,<sup>7</sup> and overlooks the intersecting discrimination faced by marginalised groups.<sup>8</sup>
6. Blame-shifting between federal and state governments detracts from compliance, transparency, and accountability regarding Australia's international obligations.
7. **Australia must enact a Human Rights Act within two years,<sup>9</sup> review and amend existing laws to ensure human rights compatibility,<sup>10</sup> advance Human Rights Acts in all states and territories, develop a transparent national human rights indicator index, and commit to best practice human rights education to promote a national human rights culture.**<sup>11</sup>
8. Children continue to face systemic breaches of their human rights.<sup>12</sup>
9. **Australia must include specific protections for children in a federal Human Rights Act, enact a federal Children's Rights Act to incorporate CRC into domestic legislation<sup>13</sup> and appoint a Cabinet Minister for Children.**<sup>14</sup>
10. Australia has no formalised approach to reviewing reservations and interpretive declarations.<sup>15</sup>
11. **The Australian Parliament's Joint Standing Committee on Treaties must review, with a view to withdrawing, all existing reservations and declarations under UN human rights treaties.**
12. **All jurisdictions must appoint and fund an NPM<sup>16</sup> and enact legislation to support NPM, including for UNSPT.**
13. Australia's inadequate domestic incorporation of its international obligations leaves victims without an effective domestic remedy or access to complaint mechanisms.
14. **Australia must become a party to the Optional Protocols to ICESCR and CRC.**<sup>17</sup>
15. Australia lacks an institutional mechanism for investigating and prosecuting international crimes committed by and against Australians.
16. **Australia must develop a permanent specialist international crimes mechanism, resourced to provide effective access to justice for victims.**
17. Australia does not adequately protect Article 14 ICCPR rights of review in criminal proceedings.<sup>18</sup>

18. **Australia must establish a statutory National Criminal Review Commission empowered and resourced to investigate claims of wrongful conviction and refer to courts of appeal.**
19. Australia is pursuing defence exports market expansion at the expense of its human rights obligations under the Arms Trade Treaty.<sup>19</sup>
20. **Australia must conduct a comprehensive review and reform its defence export permit system to ensure ATT compliance.**

## Aboriginal and Torres Strait Islander Peoples

21. Aboriginal and Torres Strait Islander Peoples lack a national representative body following previous funding cuts,<sup>20</sup> which contributes to poor outcomes across every social indicator<sup>21</sup> and fails to recognise Indigenous rights to self-determination.<sup>22</sup> Additionally, there is chronic underfunding of Aboriginal and Torres Strait Islander human rights advocacy.<sup>23</sup>
22. **Australia must commit funding to empower Aboriginal and Torres Strait Islander Peoples to establish a permanent national representative body,<sup>24</sup> and fund Indigenous human rights bodies, within 12 months.**
23. Aboriginal and Torres Strait Islander Peoples living in remote communities suffer profound disadvantage,<sup>25</sup> reflected in food insecurity,<sup>26</sup> poor water quality,<sup>27</sup> and lower life expectancy.<sup>28</sup> Poorer health outcomes include high rates of preventable blindness,<sup>29</sup> diabetes,<sup>30</sup> and kidney failure eight times non-Indigenous rates,<sup>31</sup> with 82% of rheumatic heart disease cases being Indigenous.<sup>32</sup>
24. Remote communities are marred by historical neglect of infrastructure, chronically overcrowded housing,<sup>33</sup> poverty,<sup>34</sup> inconsistent telecommunications and power<sup>35</sup> and unmaintained roads and airstrips.<sup>36</sup>
25. Remote communities face systemic challenges exacerbated by punitive and racially targeted policies, such as the Cashless Welfare Card,<sup>37</sup> Income Management<sup>38</sup> and the Community Development Program with mutual obligations and financial penalties.<sup>39</sup> The Remote Jobs and Economic Development Program<sup>40</sup> is replacing CDP with employment but is limited to 3,000 of 45,000 people on CDP.
26. **Australia must work with Aboriginal and Torres Strait Islander remote communities to adequately resource infrastructure, housing, health, languages,<sup>41</sup> education<sup>42</sup> and employment, and implement self-determination through local community decision-making bodies, within 18 months.**
27. Aboriginal and Torres Strait Islander Peoples' land rights are undermined by inconsistent state legislation, insufficient recognition of traditional ties, and barriers to effective legal recourse.<sup>43</sup> Australia's Native Title system reflects systemic inequality, failing to meet obligations under UNDRIP, ICCPR and ICERD.<sup>44</sup> Native Title holders lack veto power, sufficient resources and FPIC.<sup>45</sup> Compensation lacks transparency and sufficient consideration of cultural loss.<sup>46</sup> Claims require ongoing connection to land, ignoring forced displacement.<sup>47</sup> The associated Social Justice Package was not implemented.<sup>48</sup> Additionally, traditional lands have also been contaminated,<sup>49</sup> impacting health.<sup>50</sup>
28. **Within 18 months, Australia must implement legal reforms to protect and facilitate the return of Indigenous lands and reform the *Native Title Act* by:**

- (a) **providing sufficient resources;**
  - (b) **revising evidentiary requirements;**
  - (c) **including non-economic loss compensation;**
  - (d) **ensuring Free Prior, and Informed Consent;**
  - (e) **remediating contamination;**<sup>51</sup>
  - (f) **enabling land acquisition; and**
  - (g) **enacting the Social Justice Package.**
29. Aboriginal communities' cultural heritage has insufficient legal protections, evidenced by the destruction of the 46,000-year-old Juukan Gorge.<sup>52</sup> The federal *Aboriginal and Torres Strait Islander Heritage Protection Act* lacks enforceable rights, FPIC or capacity to reject resource extraction proposals.<sup>53</sup>
  30. **Australia must establish national Aboriginal and Torres Strait Islander Cultural Heritage Protection legislation that mandates FPIC and incorporates a national repatriation policy within 18 months.**
  31. In 2020, Australia and the Coalition of Peak Organisations signed the National Agreement on Closing the Gap,<sup>54</sup> committing to overcome the entrenched inequality faced by many Aboriginal and Torres Strait Islander People.
  32. **Australia must adopt fundamentally new and effective ways of developing and implementing policies and programs affecting Aboriginal and Torres Strait Islander People and implement the Productivity Commission Review recommendations<sup>55</sup> within 12 months.**

## Justice

33. Funding shortfalls, increasing complexity, high volumes of legal need, and insufficient responses to legal assistance market failure,<sup>56</sup> especially in remote and rural areas, is causing chronic access to justice failures.<sup>57</sup>
34. **Australia must deliver needs-based funding, planning and initiatives for geographically comprehensive access to legal assistance.**<sup>58</sup>
35. Aboriginal and Torres Strait Islander Peoples are subject to mass incarceration,<sup>59</sup> with increasing numbers held on remand.<sup>60</sup>
36. Women experience rising incarceration rates, particularly Aboriginal and Torres Strait Islander women and mothers,<sup>61</sup> who outstrip other groups.<sup>62</sup>
37. **Australia must ensure geographically comprehensive non-carceral early intervention, prevention and diversionary solutions, co-designed with impacted communities, including trauma-informed, GBV-informed and culturally safe services.**<sup>63</sup>
38. Children as young as 10 are being criminalised and incarcerated.<sup>64</sup>
39. **Australia must raise the minimum age of criminal responsibility to at least 14 years, without exceptions.**<sup>65</sup>
40. Investigations of abuses by police must be conducted by appropriately resourced and independent agencies.<sup>66</sup>

41. **Australia must ensure all jurisdictions establish and properly resource fully independent investigative bodies that meet human rights standards.**<sup>67</sup>
42. ‘Intelligence-led’ policing<sup>68</sup> and punitive bail laws<sup>69</sup> disproportionately harm Aboriginal and Torres Strait Islander Peoples, racially diverse communities, young people,<sup>70</sup> and those experiencing homelessness, who face greater bail refusals and difficulty meeting conditions.<sup>71</sup>
43. **Australia must audit policing laws to eliminate predatory and discriminatory policing,<sup>72</sup> repeal punitive bail laws, and invest in culturally safe and geographically inclusive<sup>73</sup> bail support programs that are readily accessible.**<sup>74</sup>
44. Police increasingly use ‘predictive’ policing and AI<sup>75</sup> which breaches human rights,<sup>76</sup> lacks accountability,<sup>77</sup> and entrenches racial bias.<sup>78</sup>
45. **Australia must regulate<sup>79</sup> predictive policing and AI within law enforcement agencies.**<sup>80</sup>
46. Police strip search rates have surged, disproportionately targeting young people and Aboriginal and Torres Strait Islander Peoples,<sup>81</sup> causing humiliation and trauma, and potentially breaching laws.<sup>82</sup>
47. **Australia must comprehensively amend strip search laws in all jurisdictions.**<sup>83</sup>
48. Survivors of family and GBV<sup>84</sup> often lack protection and face police failures, including misidentification as perpetrators<sup>85</sup> and privacy breaches.<sup>86</sup> Aboriginal and Torres Strait Islander women are disproportionately criminalised due to flawed ‘victim-offender’ frameworks that ignore self-defence.<sup>87</sup> Perpetrators must be held accountable through evidence-based and culturally secure processes.
49. **Australia must urgently reform police responses to family violence to reduce harm and increase safety,<sup>88</sup> including developing preventative measures, ending the criminalisation of victim-survivors,<sup>89</sup> and strengthening accountability mechanisms.**
50. Mandatory and presumptive sentencing laws<sup>90</sup> disproportionately harm Aboriginal and Torres Strait Islander Peoples,<sup>91</sup> people with disability, and those experiencing hardship.<sup>92</sup> These laws<sup>93</sup> fuel over-incarceration and undermine legal system integrity.<sup>94</sup>
51. **Australia must end mandatory and presumptive sentencing.**
52. Australia continues to prioritise prison construction over evidence-based alternatives to imprisonment.<sup>95</sup>
53. **Australia must halt all prison construction and expansions, invest in alternatives to reduce incarceration,<sup>96</sup> and work towards closing existing facilities.**<sup>97</sup>
54. Aboriginal and Torres Strait Islander incarceration increased by 15% in 2024.<sup>98</sup> Since the 1991 Royal Commission, more than 600 Aboriginal and Torres Strait Islander people have died in custody,<sup>99</sup> a figure rising at a disturbing rate.<sup>100</sup> Key recommendations from coronial inquiries and royal commissions remain unimplemented or underfunded by all levels of government.<sup>101</sup>
55. **Australia must fully implement recommendations from the 1991 Royal Commission,<sup>102</sup> the NT Royal Commission into Youth Incarceration, the DRC, and urgently act on Coronial findings on deaths in custody.**

56. Australia's youth legal system is underpinned by a carceral logic<sup>103</sup> with children<sup>104</sup> in detention facing solitary confinement,<sup>105</sup> unsafe facilities<sup>106</sup> and excessive force.<sup>107</sup> Two children have died in youth detention within a year.<sup>108</sup>
57. **Australia must embed its international obligations,<sup>109</sup> and enact practical national minimum standards for the treatment of young people in detention.**
58. Basic humane standards in adult prisons and watch houses are deteriorating.<sup>110</sup> Overcrowding and staffing shortages are causing restrictions to essential services,<sup>111</sup> more harmful lockdowns, confinement,<sup>112</sup> and worsening conditions.<sup>113</sup>
59. **Australia must urgently improve conditions in prisons to meet human rights standards.**
60. People in prisons have the right to protection from infectious diseases<sup>114</sup> and to healthcare equal to community standards.<sup>115</sup>
61. **Australia must promote evidence-based responses to protect people in prison from infectious diseases<sup>116</sup> and standardise access to federally funded healthcare.**
62. Australia has failed to implement its obligations under OPCAT.<sup>117</sup>
63. **Australia must fully implement all obligations under OPCAT.<sup>118</sup>**

## Democratic Rights and Freedoms

64. Despite compulsory voting, Australia excludes thousands of people from voting,<sup>119</sup> including prisoners<sup>120</sup> and people with disabilities.<sup>121</sup> Many eligible voters face significant barriers.<sup>122</sup> Many Aboriginal and Torres Strait Islander People could not vote in the Voice referendum.<sup>123</sup>
65. **Australia must develop a national action plan using the National Cabinet model to protect the right to vote.<sup>124</sup>**
66. Since 2020, six Australian jurisdictions have enacted laws restricting the right to peaceful assembly and freedom of expression,<sup>125</sup> which create broad offences and impose disproportionately harsh penalties.<sup>126</sup>
67. Australian police have misused crowd control weapons during protests, causing serious harm.<sup>127</sup>
68. Universities have escalated efforts to suppress campus protests, particularly in solidarity with Palestine,<sup>128</sup> through indoor protest bans, restrictions on banners and posters, and pre-approval requirements.<sup>129</sup>
69. Protest notification regimes are increasingly being used as de facto authorisation systems, contrary to international law.<sup>130</sup>
70. **Australia must:**
  - (a) **repeal or amend anti-protest laws to ensure compliance with international obligations;**
  - (b) **prohibit the use of explosive devices and dangerous crowd control weapons<sup>131</sup> and ban police tactics like kettling at protests; and**
  - (c) **bring notification regimes in line with its international obligations.<sup>132</sup>**

71. The 2019 AFP raids<sup>133</sup> exposed serious press freedom concerns, yet recommendations remain unimplemented.<sup>134</sup> National security laws have eroded press freedom and source protection, contributing to Australia's drop on the global press freedom index.<sup>135</sup>
72. **Australia must enact a Media Freedom Act.**<sup>136</sup>
73. Australia continues to prosecute whistleblowers like David McBride<sup>137</sup> and Richard Boyle.<sup>138</sup> Expanding secrecy laws and inadequately protecting whistleblowing suppresses public interest reporting.
74. **Australia must strengthen and harmonise whistleblower protections, reform draconian secrecy laws, establish a Whistleblower Protection Authority,<sup>139</sup> and pardon McBride and Boyle.**
75. Australia's planned under-16s social media ban risks violating children's rights.<sup>140</sup> It fails to tackle platform algorithms that spread misinformation, hate and abuse, and poses serious data and privacy risks.<sup>141</sup>
76. **Australia must repeal the ban and require platforms to protect users from foreseeable harm.**

## Refugees and People Seeking Asylum

77. Australia's asylum system breaches international obligations through harmful, discriminatory practices.<sup>142</sup> Interception and return of people seeking asylum violates non-refoulement obligations.<sup>143</sup>
78. Australia has spent \$13bn on offshore detention,<sup>144</sup> despite deaths, violence, and medical neglect.<sup>145</sup> Refugees in Nauru<sup>146</sup> and PNG<sup>147</sup> remain without durable solutions.<sup>148</sup> The UNHRC has found Australia in breach of international law for arbitrary detention in both Australia and Nauru.<sup>149</sup>
79. Around 900 people<sup>150</sup> transferred from Nauru and PNG for urgent medical care remain in Australia with no pathway to permanent residency.<sup>151</sup>
80. **Australia must end offshore processing and evacuate remaining refugees to Australia, offering humane durable solutions consistent with international obligations.**
81. Onshore detention remains punitive,<sup>152</sup> and pervasive<sup>153</sup> with 966 people detained,<sup>154</sup> for an average period of 458 days.<sup>155</sup> Use of force and restraints is widespread.<sup>156</sup> Women, LGBTQIA+ people, and people with disability<sup>157</sup> face elevated risks.<sup>158</sup>
82. **Australia must end mandatory immigration detention and enforce strict time limits, protections, and independent oversight where detention is used.**
83. In response to the High Court ruling against indefinite detention,<sup>159</sup> Australia passed laws that enable removals to third countries,<sup>160</sup> imprisonment for resisting removal attempts or breaching visa conditions, banning of items in immigration detention, reversal of protection findings, and travel bans.<sup>161</sup>
84. New laws also impose harsh visa conditions including electronic monitoring and curfews.<sup>162</sup>
85. **Australia must repeal these laws.**

86. Over 7,000 people who were subject to the flawed Fast Track regime have no pathway to permanency despite living in Australia for over a decade.<sup>163</sup> Australia's temporary protection visa regime discriminates based on mode of arrival.<sup>164</sup>
87. **Australia must abolish temporary protection and create a pathway to permanency for people impacted by the Fast Track regime.**<sup>165</sup>
88. Denial of work and study rights, income support, and access to Medicare drives people seeking asylum into destitution and exploitation.<sup>166</sup>
89. Refugees with disability face systemic discrimination<sup>167</sup> and are excluded from the NDIS.<sup>168</sup>
90. **Australia must restore a safety net to all people seeking asylum<sup>169</sup> and end discrimination against refugees with disability.**
91. LGBTQIA+ people seeking asylum and refugees face systemic exclusion and barriers to services.<sup>170</sup> The RSD<sup>171</sup> process often fails to sensitively assess GBV and LGBTQIA+ claims.<sup>172</sup>
92. GBV disproportionately affects female<sup>173</sup> and LGBTQIA+ refugees.<sup>174</sup> Fear of visa cancellation deters reporting.<sup>175</sup> Forced marriage risks for LGBTQIA+ refugees and refugees with disability remain neglected in policy and practice.<sup>176</sup>
93. **Australia must ensure protection and targeted settlement policies for LGBTQIA+ refugees and GBV survivors.**

## Culturally and Linguistically Diverse People and Communities

94. Systemic racism disproportionately impacts CALD communities,<sup>177</sup> including in immigration, employment, education, healthcare, housing, and the legal system, resulting in poorer life outcomes, limited access to opportunities, and intergenerational disadvantage.<sup>178</sup>
95. **Australia must implement the recommendations of AHRC's National Anti-Racism Framework.**<sup>179</sup>
96. Capping and queuing family reunion visas creates backlogs<sup>180</sup> that disproportionately affect CALD communities.<sup>181</sup> Border force profiles Asian women as sex workers and departs without due process.<sup>182</sup> Visa refusals based on projected healthcare costs disproportionately affect people with disabilities within this CALD migrant cohort.<sup>183</sup>
97. **Australia must commit to fair, efficient and non-discriminatory immigration policy.**
98. CALD women and children with precarious visa statuses face heightened risk of GBV, including coercive control, and are often unable to access services like Medicare, Centrelink, or safe housing. Risks are magnified for intersectional cohorts of CALD women and children.<sup>184</sup>
99. **Australia must introduce a substantive temporary visa to support victim-survivors of family violence.**
100. Strict residency-based preclusion, waiting periods, language barriers, and inadequate culturally appropriate information and support<sup>185</sup> cause inequity for CALD communities accessing government services.<sup>186</sup>

101. **Australia must ensure equal access to social security, health, disability, and other government services.**

## Older People

102. Older people<sup>187</sup> lack adequate sanctions, redress or remedy to serious human rights violations.
103. **Australia's Draft National Plan to End the Abuse and Mistreatment of Older People 2024-34<sup>188</sup> must include stronger measures, adequate funding and clear accountability.<sup>189</sup>**
104. **Australia must develop a geographically comprehensive National Plan against Ageism.<sup>190</sup>**
105. *Aged Care Act*<sup>191</sup> rights are not directly enforceable. The Act does not support diversity,<sup>192</sup> including for LGBTQIA+ people and people with disability.<sup>193</sup> Systems lack sufficient awareness, resourcing, and training to support older people experiencing violence, abuse, and use of restrictive practices; especially women in residential care.<sup>194</sup>
106. There are insufficient culturally safe, community-led ageing-in-place services, and a lack of systems to address cultural abuse for older Aboriginal and Torres Strait Islander Peoples.<sup>195</sup> Despite Closing the Gap commitments and Royal Commission findings, Australia's support for ACCOs to deliver self-determined aged care is inadequate.<sup>196</sup>
107. More older women than men live in poverty,<sup>197</sup> are at increased risk of homelessness,<sup>198</sup> and experience gendered<sup>199</sup> and age-related violence.<sup>200</sup> Gendered ageism and care responsibilities impede workforce participation.<sup>201</sup> Australia's new approach references older women but must clarify how they will be prioritised.<sup>202</sup>
108. **Australia must actively participate<sup>203</sup> in drafting and elaboration of a convention on the human rights of older persons.<sup>204</sup>**

## People with Disability

109. People with disability are deeply disappointed<sup>205</sup> by ongoing segregation and Australia's response<sup>206</sup> to the DRC.<sup>207</sup>
110. **Australia must implement DRC recommendations regarding full desegregation in education, employment and housing, and incorporate DRC recommendations into Australia's Disability Strategy<sup>208</sup> with binding targets and legislative mandates.**
111. Implementation gaps in CRPD<sup>209</sup> rights to prevent discrimination, violence,<sup>210</sup> abuse, neglect and exploitation of people with disability exist,<sup>211</sup> and are compounded for Aboriginal and Torres Strait Islander Peoples<sup>212</sup> geographically and other marginalised communities.<sup>213</sup>
112. **Australia must implement a Human Rights Act, which gives effect to all CRPD obligations; and modernise the outdated *Disability Discrimination Act* to properly protect the rights of people with disability and include a positive duty to prevent disability discrimination.**

113. Restrictive practices, involuntary treatments and forced sterilisation<sup>214</sup> are prevalent. Inaccessible housing and insufficient disability and community support<sup>215</sup> maintain institutionalisation.<sup>216</sup>
114. **Australia must:**
- (a) **implement the CRPD Committee’s deinstitutionalisation guidelines;**
  - (b) **urgently replace all substituted decision-making laws and withdraw its Interpretative Declarations;**<sup>217</sup>
  - (c) **implement human rights compliant legal frameworks regulating restrictive practices in all settings and prohibit forced sterilisation;**
  - (d) **invest significant resources in establishing foundational supports;**<sup>218</sup> and
  - (e) **ensure ongoing NDIS reforms are disability-led**<sup>219</sup> **and comply with CRPD.**
115. People with disability are disproportionately impacted by criminal legal systems and subjected to indefinite detention.<sup>220</sup>
116. **Australia must implement DRC recommendations relating to the criminal legal system.**

## Sexual Orientation, Gender Identity and Expression and Sex Characteristics

117. By 2030, Australia must:
- (a) **Ensure universal access to gender-affirming healthcare.**<sup>221</sup> Access barriers include gaps in Medicare and PBS coverage, limited supply and service availability, and out-of-pocket costs.<sup>222</sup>
  - (b) **End unnecessary medical treatment on people with innate variations of sex characteristics without personal consent.** Harmful medical practices persist in Australia, with the ACT the only jurisdiction to partially regulate some medical procedures without personal consent on people with innate variations of sex characteristics.<sup>223</sup>
  - (c) **Protect LGBTQIA+ people from discrimination and hate speech, including by narrowing exemptions allowing religious organisations to discriminate.** Protections throughout Australia from hate speech and discrimination are inconsistent;<sup>224</sup> the *Sex Discrimination Act*<sup>225</sup> still allows discrimination against LGBTQ+ people through broad exemptions for religious institutions.<sup>226</sup>
  - (d) **Deliver public education campaigns to address discrimination against LGBTQIA+ people.** LGBTQIA+ people continue to face high rates of discrimination, violence and mental distress.<sup>227</sup> Public understanding of innate variations of sex characteristics is low, driving discrimination and stymying data collection.
  - (e) **Sustainably fund LGBTQIA+ community-controlled organisations to deliver essential services.** Inadequate funding is available for LGBTQIA+ organisations in Australia.<sup>228</sup> Funding tends to be for projects, instead of long-term unrestricted funding for organisations.<sup>229</sup>

## Children and Young People

118. Children<sup>230</sup> are key stakeholders in many policy areas. Yet, their views are not seriously considered in policy development.<sup>231</sup> Consultations are fragmented and lack accountability.
119. **Australia must prioritise children's rights<sup>232</sup> and best interests in policies impacting them, including on climate change,<sup>233</sup> youth justice, education, mental health, GBV, immigration<sup>234</sup> and technology.<sup>235</sup>**
120. Aboriginal and Torres Strait Islander children are over 10 times more likely to be removed from their families and 29 times more likely to be detained.<sup>236</sup> Disproportionate use of suspensions in schools perpetuate a school-to-prison pipeline.<sup>237</sup>
121. **Australia must fund and empower ACCOs to co-design and deliver measures to meet Closing the Gap targets.<sup>238</sup>**
122. Australia's age of criminal responsibility remains 10 in most jurisdictions.
123. **Australia must<sup>239</sup> urgently raise the age of criminal responsibility to at least 14, without exceptions, and appropriately support children and young people.<sup>240</sup>**
124. Children are often isolated, forcibly restrained, and not separated from adults in detention.
125. **Australia must guarantee separate detention of children<sup>241</sup> and establish and monitor national youth justice standards consistent with CRC.<sup>242</sup>**
126. Children are increasingly experiencing psychological distress, which is influenced by social determinants of health.<sup>243</sup>
127. **Australia must address these social determinants,<sup>244</sup> and expand and resource new service models for children's mental health.**
128. The National Framework for Protecting Australia's Children<sup>245</sup> lacks monitoring measurements. It does not effectively prevent violence and discrimination against children and fails to protect economic, social, cultural rights, and participatory rights.<sup>246</sup>
129. **Australia must develop a National Plan for Children<sup>247</sup> which comprehensively protects children's rights.**
130. **Australia must adequately resource the National Children's Commissioner to monitor child rights and ensure the National Commission for Aboriginal and Torres Strait Islander Children and Young People complies with the Paris Principles.<sup>248</sup>**

## Women

131. Aboriginal and Torres Strait Islander women and girls are subject to unacceptably high rates of GBV, mass incarceration and destruction of family wellbeing through child removals.<sup>249</sup> They are also subject to economic disempowerment and poverty, through geographic discrimination,<sup>250</sup> financial abuse, and pay inequity,<sup>251</sup> and their families are overrepresented in Income Management Policies.<sup>252</sup>

132. **Australia must urgently deliver a principled,<sup>253</sup> coordinated, whole-of-government response led by Aboriginal and Torres Strait Islander women to ensure safety, economic security, and self-determination.**
133. Australia's systematic and pervasive withholding of services from remote and rural areas violates women's rights under Australia's treaty obligations, including CEDAW.<sup>254</sup>
134. **Australia must ensure women's human rights inclusion without geographic exception or discrimination.<sup>255</sup>**
135. Migrant and refugee women frequently encounter workplace sexual harassment, exploitative conditions and racial discrimination.<sup>256</sup>
136. **Australia must:**
- (a) **strengthen employment protections for women;**
  - (b) **expand recognition of overseas qualifications and job readiness programs;**
  - (c) **promote culturally competent hiring and inclusive workplace practices; and**
  - (d) **properly resource the Workplace Justice Visa and Strengthening Reporting Protections pilots.<sup>257</sup>**
137. **Australia must address all forms of GBV and intersecting discrimination,<sup>258</sup> including by:**
- (a) **implementing accountability measure to address racism, sexism, geographic relegation,<sup>259</sup> perpetrator accountability, and structural inequities,<sup>260</sup> especially for women accessing services in rural and remote communities;**
  - (b) **ensuring legal protections for women on temporary visas facing family violence;<sup>261</sup> and**
  - (c) **amending laws to extend absolute defamation privilege for reports made to police, medical, housing, education, employment and complaints bodies.<sup>262</sup>**
138. **Australia must legislate gender equality across all policies and services, with parliamentary oversight to ensure it is prioritised and properly funded.**

## Equality and Non-Discrimination

139. **Australia must:**
- (a) **Enact uniform anti-discrimination legislation which provides a clear, consistent and comprehensive pathway of redress, and effective remedies against intersectional discrimination, to promote substantive equality.<sup>263</sup>**
  - (b) **Extend coverage of protected attributes to fill gaps in protection.<sup>264</sup>**
  - (c) **Introduce federal protections against religious discrimination. Exemptions to discrimination law that allow for the manifestation of religious beliefs must be proportionate and aimed at maximising realisation of all human rights.<sup>265</sup>**
  - (d) **Strengthen anti-vilification laws to protect all groups vulnerable to hate speech, ensuring limitations on speech are necessary and proportionate.<sup>266</sup>**
  - (e) **Empower and resource Aboriginal and Torres Strait Islander Peoples to lead reform of racialised laws, policies and institutions that discriminate against and oppress them.**

- (f) **Implement the AHRC's Anti-Racism Framework.**<sup>267</sup>
- (g) **Extend equal access costs models in anti-discrimination legal proceedings to state/territory anti-discrimination and related civil proceedings to enhance access to justice for victims of discrimination.**<sup>268</sup>

## Poverty

- 140. Structural inequalities place millions in poverty.<sup>269</sup> Australia's social security system supports survival for many<sup>270</sup> but falls far short of its responsibility to respect, protect and fulfil human rights.<sup>271</sup> Payments are too low, causing and compounding poverty.<sup>272</sup>
- 141. Conditionalities and surveillance harm, or exclude altogether, people accessing payments,<sup>273</sup> often increasing intersectional and spatial inequality. Australia marginalises input from poor people, ignores evidence and perpetuates colonial violence<sup>274</sup> by refusing to act on recommendations.<sup>275</sup>
- 142. **Australia must urgently increase social security payments<sup>276</sup> and establish robust, locationally equitable anti-poverty measures.**
- 143. Compulsory participation and unpaid labour requirements, and income quarantining<sup>277</sup> are inequitable, intrusive and discriminatory, and violate the right to social security. Conditionality has been applied experimentally, without ethical frameworks or due process safeguards.
- 144. **Australia must immediately abolish compulsion in programs for people accessing social security and within 3 years implement effective, responsive, voluntary programs to assist people who want help.**
- 145. Extreme targeting of payments<sup>278</sup> causes increased administrative burden and barriers to access.<sup>279</sup> Intentional service failure<sup>280</sup> and patterns of negligent and unlawful decision-making<sup>281</sup> increase distress and barriers to seeking support.<sup>282</sup>
- 146. Increasing digitisation risks algorithmic injustice, systems failures, and digital exclusion.
- 147. **Australia must provide equitable access to social security payments by:**
  - (a) **reducing complexity and expanding eligibility;**
  - (b) **reforming debt recovery approaches;**
  - (c) **ensuring agencies behave lawfully and are available and responsive;**
  - (d) **restoring shopfronts and paper-based processes where needed; and**
  - (e) **resourcing support services, including culturally safe legal services for Aboriginal and Torres Strait Islander People.**

## Housing and Homelessness

- 148. Since 2021, homelessness has increased,<sup>283</sup> particularly for people with disability,<sup>284</sup> women,<sup>285</sup> children<sup>286</sup> and Aboriginal and Torres Strait Islander Peoples.<sup>287</sup> Social housing stock has proportionally declined<sup>288</sup> and housing affordability worsened.<sup>289</sup>
- 149. **Australia must deliver a national housing and homelessness strategy which includes significant investment in support services<sup>290</sup> and social housing stock for diverse needs.**<sup>291</sup>

150. **Australia must adequately fund community-led solutions to ensure all Aboriginal and Torres Strait Islander Peoples can access appropriate housing assistance and housing in accordance with Closing the Gap and Housing Policy Partnership.**<sup>292</sup>
151. The right to adequate housing<sup>293</sup> is not protected.<sup>294</sup> Many homes are substandard,<sup>295</sup> inaccessible,<sup>296</sup> culturally unsuitable<sup>297</sup> or lacking essential services access.<sup>298</sup>
152. **Australia must enshrine the right to adequate housing at all levels of government.**<sup>299</sup>
153. **Australia must implement binding, national legislative standards for renters.**<sup>300</sup>
154. The rights of people experiencing homelessness continue to be violated,<sup>301</sup> including through criminalisation.<sup>302</sup>
155. **Australia must work with states and territories to reform laws which disproportionately impact people experiencing homelessness.**<sup>303</sup>

## Climate Change

156. Australia is failing to prevent human rights harms caused by climate change.<sup>304</sup> While emissions reduction policies have strengthened in the past 3 years,<sup>305</sup> Australia's 2030 target remains inadequate to limit global warming to 1.5°C.<sup>306</sup> The transition has been neither equitable nor inclusive. Fossil fuel subsidies, mining, and exports are increasing,<sup>307</sup> undermining global targets and human rights.<sup>308</sup>
157. **Australia must:**
  - (a) **increase its 2030 emissions reduction target to at least 75% and work towards net zero by 2035;**
  - (b) **stop new coal and gas projects, develop a plan for winding down exports, and end fossil fuel subsidies by 2026;**<sup>309</sup>
  - (c) **accelerate renewable energy, storage, electrification, and energy efficiency with socially, economically and geographically inclusive policies and uphold Aboriginal and Torres Strait Islander Peoples' self-determination; and**
  - (d) **ratify the Global Oceans Treaty.**<sup>310</sup>
158. Australia is failing to ensure people can adapt to climate change and to facilitate just transitions for all.
159. **Australia must develop mitigation and adaptation policies, including a rights and equity-based National Adaptation Plan, with effective monitoring and accountability mechanisms, and with the meaningful participation of affected communities.**<sup>311</sup>
160. **Australia must support community participation by meeting its obligation to ensure data access for at-risk communities, including release of the Climate Risk Map.**
161. Australia is failing to assist developing countries<sup>312</sup> to mitigate climate pollution, adapt to climate change and recover from losses and damages in accordance with its fair share.<sup>313</sup>
162. **Australia must increase its climate finance contribution,<sup>314</sup> while mainstreaming climate considerations into existing programs and streamlining access and funding for impacted communities.**<sup>315</sup>

## Pandemic and Disaster Response

163. Since 2020, Australia has endured COVID-19, floods, bushfires, and other disasters made worse by climate change. Another pandemic is increasingly likely because of global travel and environmental exploitation.
164. **The Australian Health Protection Committee must establish a mechanism that supports a national response focused on prevention that incorporates geographic, social, and economic inclusion,<sup>316</sup> is informed by advice<sup>317</sup> from disproportionately impacted communities,<sup>318</sup> and does not prioritise a criminal legal response.**
165. National emergencies<sup>319</sup> disproportionately impact marginalised communities.<sup>320</sup>
166. **Australia must prioritise community-led responses by Aboriginal and Torres Strait Islander and other communities impacted by emergencies.<sup>321</sup>**
167. **Within one year, Australia must ensure government grant and procurement arrangements support the rapid delivery of funding and services, including legal assistance services and social security,<sup>322</sup> in national emergencies.<sup>323</sup>**

## Privacy and Digital Rights

168. Australia's privacy framework is outdated and fails to protect against pervasive datafication in the digital world,<sup>324</sup> leaving marginalised communities particularly vulnerable.<sup>325</sup> Key reforms have been deferred.<sup>326</sup>
169. **Australia must implement the Privacy Act Review Report<sup>327</sup> and update the *Privacy Act*<sup>328</sup> by 2026, ensuring metadata protections, a fair and reasonable usage test,<sup>329</sup> and genuine user choice around data consent.<sup>330</sup>**
170. Australia's online safety regime prioritises 'notice and takedown' and co-regulation, failing to address systemic digital risk. A comprehensive approach is needed<sup>331</sup> including stronger action on online hate speech<sup>332</sup> and implementing Safety by Design Principles.<sup>333</sup>
171. **Australia must update the *Online Safety Act*<sup>334</sup> by 2028 to include an overarching duty of care, requirements for risk assessments, and mandated risk mitigation to reduce discrimination and unjustified limitations on privacy and communication.**
172. People affected by the digital divide are losing access to essential services in the rush to digital-by-default.<sup>335</sup>
173. **Australia must provide accessible alternatives to online services in consultation with affected communities.**
174. Governments and businesses are adopting automated decision-making without robust data protection measures or safeguards against error and/or discrimination.<sup>336</sup>
175. **Australia must conduct regular, independent audits of automated decision-making systems to ensure human rights compliance and limit risks of bias as part of Attorney-General's governance framework.**

## Health

176. People in Australia live 13% of their lives in ill-health, with poorer outcomes for marginalized and younger populations.<sup>337</sup>
177. **Australia must invest 5%<sup>338</sup> of the health budget in prevention and establish a Centre for Disease Control.**<sup>339</sup>
- Health access disparities<sup>340</sup> reflect social, cultural, and commercial determinants of health and underinvestment in remote and rural areas and community-based mental health supports.<sup>341</sup> Intensifying climate events exacerbate these disparities.<sup>342</sup>
- Australia must invest in equitable geographic access to culturally safe, affordable healthcare that enables self-determination, bodily autonomy and reproductive justice.**<sup>343</sup>
178. Aboriginal and Torres Strait Islander Peoples carry disproportionate health burdens due to intergenerational trauma, mass incarceration and racism.<sup>344</sup> The health gap remains substantial with inadequate progress on Closing the Gap.<sup>345</sup>
179. **Australia must implement the Priority Reforms of the National Agreement on Closing the Gap to support improved health outcomes.**
180. Transgender and gender diverse people experience barriers accessing culturally safe healthcare.<sup>346</sup>
181. **Australia must ensure nationally consistent, free, and timely access to gender-affirming multidisciplinary healthcare, including for children and adolescents.**<sup>347</sup>
182. **Australia must invest in education and training of the health workforce.**<sup>348</sup>
183. BBVs and STIs pose significant health risks<sup>349</sup> among priority populations.<sup>350</sup>
184. **Australia must invest in implementing rights-affirming health strategies to address inequities.**<sup>351</sup>
185. **Australia must repeal laws that criminalise transmission and promote stigma and discrimination.**

## Workers' Rights

186. Despite Australia's ratification of international treaties<sup>352</sup> upholding the rights to safe and equitable workplaces,<sup>353</sup> women continue to experience sexual harassment at alarming rates.<sup>354</sup> The widespread use of NDAs<sup>355</sup> and defamation law<sup>356</sup> prevent people exercising their rights, and stymie efforts to address sexual harassment, silencing victim-survivors.
187. **Australia must urgently reform defamation laws to grant absolute privilege to relevant disclosures<sup>357</sup> and limit misuse of NDAs.**
188. Restrictive visa conditions heighten temporary migrant workers' vulnerability to exploitation by limiting mobility, reinforcing power imbalances and restricting participation in society.<sup>358</sup>
189. **Australia must:**

- (a) **ensure all temporary migrants can change employer without discrimination<sup>359</sup> and access the Fair Entitlements Guarantee;<sup>360</sup>**
  - (b) **resource Workplace Justice Visa and Strengthening Reporting Protections pilots;<sup>361</sup>**
  - (c) **regulate labour hire companies through a national scheme;<sup>362</sup>**
  - (d) **establish a low-cost-accessible wages recovery process;<sup>363</sup>**
  - (e) **improve industrial protections for independent contractors, particularly in the gig economy;**
  - (f) **allow all individuals in trafficking-like situations access to Support for Trafficked People Program;<sup>364</sup>**
  - (g) **fund Oceanic-led outreach services and culturally specific soft-skills training, including gender-focussed perspectives, to ensure worker safety and protect workers' rights;<sup>365</sup> and**
  - (h) **decriminalise sex-work in all jurisdictions, ensure sex-workers are covered by work health and safety, industrial protections, and prevent discrimination against sex-workers.<sup>366</sup>**
190. The *Fair Work Act*<sup>367</sup> imposes excessive restrictions on the right to strike.<sup>368</sup> Provisions<sup>369</sup> of the FWA intended to give effect<sup>370</sup> to ILO conventions<sup>371</sup> are ineffective due to narrow interpretations.<sup>372</sup>
191. **Australia must amend FWA provisions to ensure they meet ILO convention objectives.**

## Business and Human Rights

192. Australian businesses continue to be implicated in serious human rights violations, including labour rights abuses,<sup>373</sup> attacks on civic space,<sup>374</sup> cultural heritage destruction,<sup>375</sup> abuses in conflict zones,<sup>376</sup> and environmental degradation.<sup>377</sup>
193. **To uphold its responsibilities under the UN Guiding Principles on Business and Human Rights, Australia must:**
- (a) **introduce legislation imposing human rights and environmental due diligence obligations on companies;**
  - (b) **fully implement UNDRIP, including meaningfully incorporating FPIC into the *Native Title Act*<sup>378</sup> and establish a national cultural heritage protection framework;**
  - (c) **require companies to reduce their greenhouse gas emissions through a stronger 2030 emissions reduction target, consistent with the Paris Agreement;**
  - (d) **ban SLAPPs through dedicated legislation;<sup>379</sup>**
  - (e) **strengthen enforcement of the *Modern Slavery Act* and ban imports produced with forced labour;<sup>380</sup> and**

- (f) **ensure access to remedy for corporate human rights violations, including by reducing barriers to courts and strengthening OECD National Contact Point on Responsible Business Conduct.**

## International Assistance

194. Australia's rights-based approach to Official Development Assistance<sup>381</sup> is undermined by our ODA budget declining to its lowest level ever.<sup>382</sup>
195. **Australia must increase ODA by 0.1% ODA/GNI annually, to meet the Sustainable Development Goals' 0.7% ODA/GNI target by 2030.**<sup>383</sup>
196. **ODA funding for civil society must be increased<sup>384</sup> to combat shrinking of civic space, growing anti-democracy<sup>385</sup> and anti-rights movements,<sup>386</sup> and the influence of autocratic states.**
197. Respect for International Humanitarian Law is declining, impacting civilians and humanitarians.<sup>387</sup>
198. **Australia must call for IHL adherence internationally<sup>388</sup> and facilitate humanitarian assistance<sup>389</sup> by including humanitarian 'carve-outs' in Australian sanctions and counter-terrorism law by 2026.**<sup>390</sup>

## Annexure A: List of Abbreviations

Abbreviation	Definition
4Rs	Regional, rural, remote and very remote areas
ACCO	Aboriginal community controlled organisation
ACT	Australian Capital Territory
AFP	Australian Federal Police
AI	Artificial intelligence
ATT	Arms Trade Treaty
BBVs	Blood borne viruses
CALD	Culturally and linguistically diverse
CDP	Community Development Program
CRC	Convention on the Rights of the Child
DRC	Disability Royal Commission
FPIC	Free, prior and informed consent
FWA	Fair Work Act
GBV	Gender-based violence
GNI	Gross national income
ICCPR	International Covenant on Civil and Political Rights
ICERD	International Convention on the Elimination of Racial Discrimination
ICESCR	International Covenant on Economic, Social and Cultural Rights
IHL	International Humanitarian Law
ILO	International Labour Organisation
LGBTQIA+	Lesbian, gay, bisexual, transgender, queer, intersex, asexual and other people with diverse sexual orientations, gender identities or expression or sex characteristics. Variations of this acronym are used intentionally to reflect the different ways human rights issues affect different communities.
NDA	Non-disclosure agreement
NDIS	National Disability Insurance Scheme
NPM	National Preventive Mechanism
ODA	Official Development Assistance
OECD	Organisation for Economic Cooperation and Development
OHCHR	Office of the United Nations High Commissioner for Human Rights
OPCAT	Optional Protocol to the Convention Against Torture
PBS	Pharmaceutical Benefits Scheme
PNG	Papua New Guinea
RSD	Refugee Status Determination
SETS	Settlement Engagement and Transition Support Program
SLAPPs	Strategic Litigation Against Public Participation
STIs	Sexually transmitted infections
UNDRIP	United Nations Declaration on the Rights of Indigenous Peoples
UNSPT	United Nations Subcommittee on the Prevention of Torture

## Annexure B: Activities of the Australian UPR NGO Coalition

### Methodology

The UPR NGO Coalition Report was coordinated by the Human Rights Law Centre, Kingsford Legal Centre, Indigenous People's Organisation-Australia, and Community Legal Centres Australia.

In developing this report, the Coordinating Committee undertook wide-ranging consultation with NGOs across Australia between 17 December 2024 and 30 June 2025.

The process involved over 100 organisations across Australia who contributed to the report by providing feedback on its structure and content, providing expert input in the development of each thematic section as part of a working group, and coordinating the development of each thematic section as lead authors.

Thanks to the participation of a wide range of organisations, each working group reflected a diversity of perspectives and expertise. Authors and contributors were also asked to apply an intersectional lens, with particular attention to the experiences of marginalised communities, including Aboriginal and Torres Strait Islander Peoples, people with disability, women, culturally and linguistically diverse communities, LGBTQIA+ people, and people living in regional and remote communities.

### **Pro Bono Assistance**

We would like to acknowledge the generous pro bono support that we have received in completing this report from Wotton + Kearney, in particular through the secondment of Akira Naidoo whose contribution to the this report, and the development of the implementation matrix (included for the first time in the 4th Cycle) was invaluable.

Thank you also to Moray & Agnew for their pro bono research assistance and contribution to the implementation matrix.

## Annexure C: Endnotes

- <sup>1</sup> Joint Select Committee on Constitutional Recognition of Aboriginal and Torres Strait Islander Peoples. (2015) *Chapter 1: Achieving constitutional recognition*. Australian Government. - <sup>2</sup> Productivity Commission. (2024, January). *Review of the National Agreement on Closing the Gap: Study report (Vol. 1, p.7)*. Australian Government. <https://www.pc.gov.au/inquiries/completed/closing-the-gap-review/report/closing-the-gap-review-report.pdf>
- <sup>3</sup> United Nations General Assembly. (2007). *United Nations Declaration on the Rights of Indigenous Peoples* (A/RES/61/295)., Article 1, United Nations. [https://www.un.org/development/desa/indigenouspeoples/wp-content/uploads/sites/19/2018/11/UNDRIP\\_E\\_web.pdf](https://www.un.org/development/desa/indigenouspeoples/wp-content/uploads/sites/19/2018/11/UNDRIP_E_web.pdf)
- <sup>4</sup> United Nations General Assembly. (2007). *United Nations Declaration on the Rights of Indigenous Peoples* (A/RES/61/295). United Nations. [https://www.un.org/development/desa/indigenouspeoples/wp-content/uploads/sites/19/2018/11/UNDRIP\\_E\\_web.pdf](https://www.un.org/development/desa/indigenouspeoples/wp-content/uploads/sites/19/2018/11/UNDRIP_E_web.pdf); United Nations General Assembly. (2014, September 22). *Resolution adopted by the General Assembly on 22 September 2014: Outcome document of the high-level plenary meeting of the General Assembly known as the World Conference on Indigenous Peoples* (A/RES/69/2). United Nations. <https://docs.un.org/en/A/RES/69/2>
- <sup>5</sup> Australia must follow the example of the State of Victoria by passing legislation similar to the *Advancing the Treaty Process with Aboriginal Victorians Act 2018* (Vic) and establishing a truth-telling commission similar to the Yoorrook Justice Commission.
- <sup>6</sup> The National Inquiry into the Separation of Aboriginal and Torres Strait Islander Children from Their Families was tabled in Parliament on 26 May 1997. It traces the past laws, practices and policies that resulted in the forced removal of children and makes recommendations to support healing and reconciliation for the Stolen Generations and their families. Its reparations recommendations remain unimplemented in some states and territories. National Inquiry into the Separation of Aboriginal and Torres Strait Islander Children from Their Families (Australia). (1997). *Bringing them home: Report of the National Inquiry into the Separation of Aboriginal and Torres Strait Islander Children from Their Families*. Human Rights and Equal Opportunity Commission. <https://bth.humanrights.gov.au/the-report/bringing-them-home-report>.
- <sup>7</sup> Three jurisdictions within Australia have enacted legislated human rights frameworks that afford legal recognition of some ICCPR and a very limited number of ICESCR rights (*Human Rights Act 2004* (ACT); *Charter of Human Rights and Responsibilities Act 2006* (Vic); and *Human Rights Act 2019* (Qld)). However, five state and territory jurisdictions are yet to enact similar legislation. There is no comparable framework at the federal level. Additionally, no human rights legislation (federal, state or territory) visibly addresses human rights inclusion of people in rural and remote areas (see submission - National Regional, Rural, Remote and Very Remote Community Legal Network. (2017, June). *Independent review of Human Rights Act 2019 (Qld) submission*. <https://clcs.org.au/wp-content/uploads/2024/07/21-June-24-4Rs-submission-review-of-the-Qld-Human-Rights-Act.pdf>
- <sup>8</sup> In this submission marginalised groups and communities refers to populations that are systemically exclude, oppressed, or disadvantaged due to factors such as race, ethnicity, genders, socioeconomic status, religion, disability, sexual orientation, or geographical location, who face structural barriers to equal opportunities in education, employment, healthcare, and political representation.
- <sup>9</sup> See recommendations in Parliamentary Joint Committee on Human Rights (PJCHR). (2024, May 30). *Inquiry into Australia's Human Rights Framework* (Report, Recommendation 2). Parliament of Australia. [https://www.aph.gov.au/Parliamentary\\_Business/Committees/Joint/Human\\_Rights/HumanRightsFramework/Report](https://www.aph.gov.au/Parliamentary_Business/Committees/Joint/Human_Rights/HumanRightsFramework/Report)
- <sup>10</sup> Parliamentary Joint Committee on Human Rights (PJCHR). (2024, May 30). *Inquiry into Australia's Human Rights Framework* (Report, Recommendation 16). Parliament of Australia. [https://www.aph.gov.au/Parliamentary\\_Business/Committees/Joint/Human\\_Rights/HumanRightsFramework/Report](https://www.aph.gov.au/Parliamentary_Business/Committees/Joint/Human_Rights/HumanRightsFramework/Report)
- <sup>11</sup> Parliamentary Joint Committee on Human Rights (PJCHR). (2024, May 30). *Inquiry into Australia's Human Rights Framework* (Report, Recommendation 17). Parliament of Australia. [https://www.aph.gov.au/Parliamentary\\_Business/Committees/Joint/Human\\_Rights/HumanRightsFramework/Report](https://www.aph.gov.au/Parliamentary_Business/Committees/Joint/Human_Rights/HumanRightsFramework/Report): A national human rights indicator index should establish a publicly available database that sets out all findings and recommendations of United Nations human rights treaty bodies about Australia, and individual communications involving Australia, and any Australian government responses.
- <sup>12</sup> Australia ranks a 32 out of 38 OECD countries on child wellbeing, one in six children in Australia are living in poverty (see, Australian Government Department of the Treasury. (2023). *Measuring what matters: Child wellbeing*. [https://treasury.gov.au/sites/default/files/2023-03/e2023-379612-equity\\_economics.pdf](https://treasury.gov.au/sites/default/files/2023-03/e2023-379612-equity_economics.pdf)). Two thirds of Australians are victims of child maltreatment, including domestic, family and sexual violence (see, Queensland Family and Child Commission. (2023). *Queensland Child Rights Report 2023: Violence against children* (Chapter 4). Queensland Government. [https://www.qfcc.qld.gov.au/sites/default/files/2023-08/QFCC\\_Child\\_Rights\\_Report\\_4\\_Violence.pdf](https://www.qfcc.qld.gov.au/sites/default/files/2023-08/QFCC_Child_Rights_Report_4_Violence.pdf)). Children as young as 10 years old can be held criminally responsible and incarcerated in most Australian jurisdictions (see, Human Rights Watch. (2025, May 25). *Australia: Children suffering under criminal legal system*. <https://www.hrw.org/news/2025/05/25/australia-children-suffering-under-criminal-legal-system>). Children in remote areas, and Aboriginal and Torres Strait Islander Children experience high developmental vulnerabilities (see, The Front Project. (2022). *Supporting all children to thrive: The importance of equity in early childhood education*. [https://www.thefrontproject.org.au/media/attachments/2022/11/24/supporting-all-children-to-thrive-report\\_updated-1.pdf](https://www.thefrontproject.org.au/media/attachments/2022/11/24/supporting-all-children-to-thrive-report_updated-1.pdf)). The vast majority of Australia's obligations under the CRC are yet to be incorporated into domestic legislation. At the federal, state and territory levels, many government decisions ignore available evidence of best practice for children's wellbeing and Australia's human rights obligations.
- <sup>13</sup> These recommendations reflect the calls made by Act for Children, an alliance of 43 civil society organisations working with Australia's National Children's Commissioner: <https://www.actforchildren.net/>.
- <sup>14</sup> Australia currently has no Minister for Children and no budget reports on child wellbeing. A Cabinet Minister for Children is needed to develop a national plan for child wellbeing and ensure coordination across all federal government portfolios with responsibilities for children.
- <sup>15</sup> Parliamentary Joint Committee on Human Rights (PJCHR). (2024, May 30). *Inquiry into Australia's Human Rights Framework* (Report, p. 95). Parliament of Australia. [https://www.aph.gov.au/Parliamentary\\_Business/Committees/Joint/Human\\_Rights/HumanRightsFramework/Report](https://www.aph.gov.au/Parliamentary_Business/Committees/Joint/Human_Rights/HumanRightsFramework/Report)
- <sup>16</sup> OPCAT requires countries to establish independent monitoring bodies known as National Preventive Mechanisms (NPMs).
- <sup>17</sup> This refers to the communication procedure for both the International Covenant on Economic, Social and Cultural Rights and the Optional Protocol to the Convention on the Rights of the Child.

- <sup>18</sup> The options available to a wrongfully convicted person in Australia are extremely limited. Recent reforms allow for persons in South Australia, Tasmania, Victoria and Western Australia to ask for a second appeal from the appeal court if there is fresh and compelling evidence that proves a miscarriage of justice occurred. People in New South Wales and the Northern Territory have the right to ask for one appeal against their conviction. See for instance: Woods, C. (2024, December 5). *Efficient and accessible pathways to challenge wrongful convictions*. Law Society Journal. <https://lsj.com.au/articles/efficient-and-accessible-pathways-to-challenge-wrongful-convictions/>
- <sup>19</sup> Arms Trade Treaty. Defence export permits continue to be issued to states and regimes with well documented current and historical human rights violations, such as Indonesia, Saudi Arabia, Israel, and Myanmar.
- <sup>20</sup> The National Congress of Australia's First Peoples established in 2010 served as the national representative body for Aboriginal and Torres Strait Islander Australians. In 2014, the Australian Government terminated the \$15 million funding allocated to the Congress. This funding cessation led the organization to enter voluntary administration in June 2019 and ceased operations in October 2019. See: Coggan, M. (2014, May 13). Budget 2014: \$534 million cut to Indigenous programs. *ABC News*. [https://www.abc.net.au/news/2014-05-13/budget-2014-\\$534-cut-to-indigenous-programs-and-health/5451144](https://www.abc.net.au/news/2014-05-13/budget-2014-$534-cut-to-indigenous-programs-and-health/5451144); In 2005, the Australian Government abolished the Aboriginal and Torres Strait Islander Commission (ATSIC), the national representative body established in 1990. See: National Museum of Australia, 1.24 2005 *Abolition of the Aboriginal and Torres Strait Islander Commission (ATSIC)*. [https://digital-classroom.nma.gov.au/learning-modules/rights-and-freedoms-defining-moments-1945-present/124-2005-abolition-aboriginal-and-torres-strait-islander-commission-atsic#:~:text=of%20Indigenous%20Peoples-.1.24%202005%20Abolition%20of%20the,Torres%20Strait%20Islander%20Commission%20\(ATSIC\)&text=It%20is%202005.,ATSIC%2C%20is%20to%20be%20abolished](https://digital-classroom.nma.gov.au/learning-modules/rights-and-freedoms-defining-moments-1945-present/124-2005-abolition-aboriginal-and-torres-strait-islander-commission-atsic#:~:text=of%20Indigenous%20Peoples-.1.24%202005%20Abolition%20of%20the,Torres%20Strait%20Islander%20Commission%20(ATSIC)&text=It%20is%202005.,ATSIC%2C%20is%20to%20be%20abolished) See also: ABC News. <sup>61</sup> This cohort of women disproportionately experience victimisation and gendered violence (See: Australian Institute of Health and Welfare. (2025). *Family, domestic and sexual violence* [Dataset]. <https://www.aihw.gov.au/family-domestic-and-sexual-violence>

<sup>62</sup> In 2024 imprisonment of women increased by 8% compared to 6% in men: Australian Bureau of Statistics. (2024, December 19).

Prisoners in Australia, Reference Period 2024. [Dataset]. <https://www.abs.gov.au/statistics/people/crime-and-justice/prisoners-australia/latest-release>. Australia must recognise that most women in prison are primary caregivers, and their incarceration inflicts lasting harm on children and communities. Imprisonment of mothers must end: see Anthony, T., Behrendt, L. & Sentance, G. –(2021). “We're not

being treated like mothers”; Listening to the stories of First Nations mothers in prison. *Laws*, 10(3), 74..

<https://doi.org/10.3390/laws10030074>; Australian Law Reform Commission, *Pathways to Justice: Inquiry into the Incarceration Rate of Aboriginal and Torres Strait Islander Peoples* (ALRC Report 133, 2018) Chapter 11.

<sup>63</sup> A lack of diversionary and family friendly drug rehabilitation programs for women, particularly Aboriginal and Torres Strait Islander women, and women with children, is resulting in increased incarceration rates for women in Australia; See Women's Safety and Justice Taskforce.(2021). *Women's Safety and Justice Taskforce: Report titled 'Hear her voice-Report 2: Addressing coercive control and domestic and family violence in Queensland', Volume 2*. Queensland Legislative Assembly. <http://nla.gov.au/nla.obj-3035337963>; Diversionary programs are important for diverting women and girls from the criminal legal system.

<sup>64</sup> The ACT recently raised the age of criminal responsibility to 12 but from July it will be 14. In August 2024, the Victorian government reversed its commitment to raise the age of criminal responsibility from 10 to 14, instead introducing legislation to raise it only to 12. In October, the newly elected Northern Territory government lowered the age of criminal responsibility from 12 to 10.

<sup>65</sup> See Children and Young People section. Sisters Inside, the National Network of Incarcerated & Formerly Incarcerated Women & Girls and Scarlet Alliance (National Sex Workers Alliance) maintain that Australia must cease incarcerating children of all ages, and instead develop and invest in safe and transformative solutions that keep our children in their homes, schools and communities, see Senator Lidia Thorpe. (2024). Additional comments by Senator Lidia Thorpe [Interim report – Senate Legal and Constitutional Affairs References Committee, Inquiry into the incarceration rate of Aboriginal and Torres Strait Islander peoples]. Parliament of Australia.

- <sup>84</sup> GBV stands for gender-based violence.
- <sup>85</sup> In relation to misidentification, it is noted that survivors of family and gender-based violence are routinely failed not only by police, but by multiple systems including the criminal legal system, immigration system, social security system, family law system, child protection system, victims support system, health, housing and other social support and employment systems. Wholescale reform is required to address this issue and promote accountability: Family Violence Reform Implementation Monitor (2021) *Accurate identification of the predominant aggressor* <https://www.fvrim.vic.gov.au/sites/default/files/2021-12/FVRIM%20Predominant%20Aggressor%20December%202021.pdf>; Ellen Reeves, 'I'm Not at All Protected and I Think Other Women Should Know That, That They're Not Protected Either': Victim-Survivors' Experiences of 'Misidentification' in Victoria's Family Violence System' *International Journal for Crime, Justice and Social Democracy* 10(4) 2021 <https://www.austlii.edu.au/au/journals/IntJCrImJustSocDem/2021/45.pdf>
- <sup>86</sup> Across rural and remote communities, police frequently fail to adequately respond to domestic and family violence, often delaying or dismissing urgent calls for help. This reflects a systemic issue that leaves women, in particular, Aboriginal and Torres Strait Islander women disproportionately vulnerable, see Moore, Sheree, Rachael Fox, Bróna Nic Giolla Easpaig, and Linda Deravin. 2023. "Family and Domestic Violence Policy Discourses and Narratives: Implications for Emergency Departments and Communities in Rural Australia". *International Journal for Equity in Health* 22 (1). <https://doi.org/10.1186/s12939-023-01873-y>; See pages 90, 113 and 184 in Nancarrow, H. (2019). *Unintended Consequences of Domestic Violence: Gendered Aspirations and Racialised Realities*. Palgrave; Coroners Court of the Northern Territory. (2022). Domestic Violence Policing of First Nations Women in Australia: 'Settler' Frameworks, Consequential Harms and the Promise of Meaningful Self-Determination, *The British Journal of Criminology*, 62(6), s 1323-1340, <https://doi.org/10.1093/bjc/azab103>
- <sup>87</sup> Research indicates not only that Indigenous women are more likely to experience DV compared to their non-Indigenous counterparts, but also as a result, that self-defensive and retaliatory violence is common among Aboriginal and Torres Strait Islander women. However, because the victim-offender dichotomy that underlines legal and service provision does not consider the nuances of female DV perpetration, mechanisms aimed at holding offenders accountable have inadvertently put those most at risk of retaliatory and self-defensive violence (i.e. Indigenous women) also at risk of experiencing justice responses that disproportionately affect them.

<sup>89</sup> At 90, 113 and 184 of Nancarrow, H. (2019) *Unintended Consequences of Domestic Violence: Gendered Aspirations and Racialised Realities*. Palgrave Macmillan Cham.

<sup>90</sup> Mandatory sentencing laws may require a judicial officer to impose a minimum sentence for a particular offence regardless of the circumstances of the offender, or only in circumstances in which the offender has previously been convicted of the same, or a similar, offence (usually two or more previous convictions for the same/similar offence within a certain time period). Presumptive sentencing laws presume that a sentence (usually one that is or includes imprisonment) be imposed, unless a judicial officer is satisfied of legislative criteria permits a different sentence. These laws are largely implemented in response to rising crime rates or highly publicised individual criminal acts, and are 'aimed at reducing judicial discretion and increasing the severity of sentencing': see Frieberg, A. (2025) Reflections on 50 Years of Sentencing Reform: The Good, the Bad and the Future. *Alternative Law Journal*, (0), Pages 1-5, <https://doi.org/10.1177/1037969X25132392>; see also Law Society of Western Australia. (2020). *Briefing Paper – Mandatory Sentencing and How it Contributes to the Incarceration of Aboriginal and Torres Strait Islander Peoples in Western Australia*. [https://lawsocietywa.asn.au/wp-content/uploads/2023/03/Briefing\\_Papers\\_Mandatory\\_Sentencing\\_Contributes\\_to\\_the\\_Incarceration\\_of\\_ATSI\\_people\\_WA.pdf](https://lawsocietywa.asn.au/wp-content/uploads/2023/03/Briefing_Papers_Mandatory_Sentencing_Contributes_to_the_Incarceration_of_ATSI_people_WA.pdf). While public opinion is frequently cited as the driver of this implementation, there is research to suggest that this is misleading: see Davis, J., Freiberg, A., Spiranovic, C., & Warner, K. (2018). Mandatory Sentencing? Use [with] Discretion. *Alternative Law Journal* 43(4), Pages 289-294. [https://www.utas.edu.au/\\_data/assets/pdf\\_file/0020/1223840/Mandatories-use-with-discretion-.pdf](https://www.utas.edu.au/_data/assets/pdf_file/0020/1223840/Mandatories-use-with-discretion-.pdf).

<sup>91</sup> The Australian Law Reform Commission ('ALRC') noted that 'Achieving substantive and not formal equality before the law includes, for example, the consideration upon sentencing of the unique and systemic factors affecting Aboriginal and Torres Strait Islander offenders': see ALRC. (2017). *Pathways to Justice – Inquiry into the Incarceration Rate of Aboriginal and Torres Strait Islander Peoples* (Report 133). Australian Government. <https://www.alrc.gov.au/publication/pathways-to-justice-inquiry-into-the-incarceration-rate-of-aboriginal-and-torres-strait-islander-peoples-alrc-report-133/>. Three-strike home burglary legislation (which requires that an adult offender receive a sentence of a minimum two years' imprisonment upon conviction of a third home burglary offence) has a 'disproportionate impact on Aboriginal and Torres Strait Islander people' in Western Australia: see at 278 [8.20] in ALRC. (2017). *Pathways to Justice – Inquiry into the Incarceration Rate of Aboriginal and Torres Strait Islander Peoples* (Report 133). Australian Government. <https://www.alrc.gov.au/publication/pathways-to-justice-inquiry-into-the-incarceration-rate-of-aboriginal-and-torres-strait-islander-peoples-alrc-report-133/>. Amnesty International has condemned three-strike mandatory sentencing legislation as contrary to government commitments to the reduction of Aboriginal incarceration, noting its detrimental impact on Aboriginal young people. See: Amnesty International. (2015, February 24). *Three Strikes and You're Out: Mandatory Sentencing in WA*. <https://www.amnesty.org.au/three-strikes-mandatory-sentencing-wa/>.

<sup>92</sup> Mandatory sentencing 'disproportionately affects those who are compelled to have no choice but to commit crimes, for example, the mentally ill, those experiencing extreme poverty and children and young people': see St Vincent de Paul Society quoted in Australian Senate, Legal and Constitutional References Committee, *Value of a Justice Reinvestment Approach to Criminal Justice in Australia* (June 2013), 9 [2.35].

<sup>93</sup> In 2014, the Law Council of Australia remarked that 'there is conflicting evidence as to the deterrent effectiveness of mandatory sentencing' and noted that during the NT's initial 'mandatory sentencing regime for property offences ... property crime increased': see Law Council of Australia, *Policy Discussion Paper on Mandatory Sentencing* (May 2014), 14 [34]. In 2018, the ALRC noted that 'mandatory sentencing increases incarceration, is costly, and is not effective as a crime deterrent' and subsequently recommended that 'Commonwealth, state and territory governments should repeal provisions which impose mandatory or presumptive terms of imprisonment upon conviction of an offender': see [8.17] in ALRC. (2017). *Pathways to Justice – Inquiry into the Incarceration Rate of Aboriginal and Torres Strait Islander Peoples* (Report 133). Australian Government. <https://www.alrc.gov.au/publication/pathways-to-justice-inquiry-into-the-incarceration-rate-of-aboriginal-and-torres-strait-islander-peoples-alrc-report-133/>.

<sup>94</sup> Mandatory sentences are at odds with many established sentencing principles and severely restrict the ability of judicial officers to exercise judicial discretion. Limits placed on judicial sentencing discretion interfere with the principle of 'individualised justice', which 'requires proportionality not only to the harm but to the circumstances of the offender': see Anthony, T., Bartels, Lorana., & Hopkins, A. (2015) *Lessons Lost in Sentencing: Welding Individualised Justice to Indigenous Justice*. *Melbourne University Law Review* 47, 51. <https://www.austlii.edu.au/cgi-bin/viewdoc/au/journals/MelbULawRw/2015/16.html>. Further, laws that compel judicial officers to impose mandatory sentences of imprisonment undermine the presumption of imprisonment as a last resort: see [8.9] in ALRC. (2017). *Pathways to Justice – Inquiry into the Incarceration Rate of Aboriginal and Torres Strait Islander Peoples* (Report 133). Australian Government. <https://www.alrc.gov.au/publication/pathways-to-justice-inquiry-into-the-incarceration-rate-of-aboriginal-and-torres-strait-islander-peoples-alrc-report-133/>. Further, mandatory sentencing laws '[shift] discretion from the judiciary to the lower levels of the administration of justice', giving police and prosecutors greater influence over accused individuals: see: Kumaraswamy, D. (2001) *Mandatory Sentencing: the Individual and Social Costs*. *Australian Journal of Human Rights* 7(2), Pages 7, 14. The Human Rights Law Centre also noted that 'exercise of police and prosecutorial discretion effectively determines whether or not an offender is subject to a period of imprisonment': see quote in Australian Senate, Legal and Constitutional References Committee, *Value of a Justice Reinvestment Approach to Criminal Justice in Australia* (June 2013) 9 [2.34]. The significance of these shifts in discretion are suggested in recent research findings in the United States, where 'shifts in the prosecutorial use of mandatory minimums played a critical role in decreasing black-white sentencing inequality': see: Light, M. (2022). *The Declining Significance of Race in Criminal Sentencing: Evidence from the US Federal Courts*. *Social Forces* 100(3), 1110-1141. <https://doi.org/10.1093/sf/soab018>.

<sup>95</sup> Since 2000, 37 new prisons have been constructed costing billions of dollars: see Blatman-Thomas, N., Burrridge, A., Markham, F., Osborne, N. & Russell, E. (2025, January 23). *Prisons don't create safer communities, so why is Australia spending billions on building them?* News Room. <https://www.unsw.edu.au/newsroom/news/2025/01/prisons-dont-create-safer-communities-so-why-is-australia-spending-billions-on-building-them>.

<sup>96</sup> Alternatives to address burgeoning prison populations must be community led and culturally secure with respect to Aboriginal people, in order to capacity-build disadvantaged communities, improve the productiveness and wellbeing of those communities and enhance community safety.

<sup>97</sup> Such as devoting resources to evidence-based diversionary and preventative programs: see e.g. discussion in Blatman-Thomas, N., Burridge, A., Markham, F., Osborne, N. & Russell, E. (2025, January 23). Prisons don't create safer communities, so why is Australia spending billions on building them? News Room. <https://www.unsw.edu.au/newsroom/news/2025/01/prisons-dont-create-safer-communities-so-why-is-australia-spending-billions-on-building-them>; Knowmore Legal Service offers a nuanced perspective on this recommendation, informed by the diverse experiences and views of victim-survivors of child abuse. Knowmore supports reforms to keep children out of prison, as well as reforms to reduce adult incarceration and ensure that prisons uphold human rights standards and promote rehabilitation. However, Knowmore also recognises the rights of victim-survivors to access justice, including through the criminal legal process. Knowmore recognises the findings of Australia's Royal Commission into Institutional Responses to Child Sexual Abuse, which demonstrated the importance of an effective criminal legal system in preventing and responding to institutional child sexual abuse.

<sup>103</sup> Australia continues to exercise a 'default punitive approach' to youth justice, a reality which further harms Aboriginal and Torres Strait Islander People. It is expressed in a pervasive 'tough on crime' media and political rhetoric, and further by custodial staff who manifest a preference for security and punitive measures over trauma-informed care: See pages 104, 108, 112-113 in Gibbs, M., Goldman, M., Hodge, M. & et al. (2024). *Help way earlier!': How Australia can transform child justice to improve safety and wellbeing*. Australian Human Rights Commission. [https://humanrights.gov.au/sites/default/files/document/publication/1807\\_help\\_way\\_earlier\\_-\\_accessible\\_0.pdf](https://humanrights.gov.au/sites/default/files/document/publication/1807_help_way_earlier_-_accessible_0.pdf). Within this carceral landscape, oversight measures and adequate access to legal representation are frequently curtailed: see Brennan, D. (2025, March 27). ACT Indigenous child commissioner prevented from visiting youth prison. *National Indigenous Times*. <https://nit.com.au/27-03-2025/17054/act-indigenous-child-commissioner-prevented-from-visiting-youth-prison>; Brennan, D. (2025, February 5) National Child Commissioner prevented from entering youth prisons. *National Indigenous Times*. <https://nit.com.au/05-02-2025/16084/exclusive-national-child-commissioner-prevented-from-entering-victorian-youth-prison>; See page 89 of volume 8: Commonwealth of Australia. <sup>109</sup> Specifically, Australia must withdraw its reservation to Article 37(c) of the Convention on the Rights of the Child, which mandates the separation of detained children from adults in custody. As observed by the National Children's Commissioner, Australia's reservation being predicated on geographical barriers is undermined by the reality that children have been detained alongside adults in predominantly metropolitan settings, and further, that Article 37(c) already provides for the concerns expressed by the Australian government – see page 90 of Gibbs, M., Goldman, M., Hodge, M. & et al. (2024). *Help way earlier!': How Australia can transform child justice to improve safety and wellbeing*. Australian Human Rights Commission.

[https://humanrights.gov.au/sites/default/files/document/publication/1807\\_help\\_way\\_earlier\\_-\\_accessible\\_0.pdf](https://humanrights.gov.au/sites/default/files/document/publication/1807_help_way_earlier_-_accessible_0.pdf). Australia must also legislate to prohibit solitary confinement. Articles 37(a) and (c) of the Convention on the Rights of the Child provide protection from torture or other cruel, inhuman or degrading treatment or punishment, and require that children be treated in a way that accounts for their age. The UN Standard Minimum Rules for the Treatment of Prisoners (Mandela Rules) define solitary confinement as the physical isolation of individuals 'for 22 or more hours a day without meaningful human contact'. Children across the country have been detained in conditions amounting to solitary confinement, and no Australian jurisdiction currently prohibits isolation amounting to solitary confinement. See pages 101 - 104 in Commonwealth of Australia. (2023). *Royal Commission into Violence, Abuse, Neglect and Exploitation of People with Disability: Final Report*. Australian Government.

<sup>110</sup> For example in Western Australia, the Inspector for Custodial Services recently determined that conditions in one prison constitute "cruel, inhumane and degrading treatment": pages 13-15 of Office of the Inspector of Custodial Services. (2025). *2024 Inspection of Hakea Prison*. Government of Western Australia. <https://www.oics.wa.gov.au/wp-content/uploads/2025/02/Hakea-Prison-2024-Inspection-Report-FINAL-v8.pdf>; pages 22-25 in Australian National Preventative Mechanism. (2024). Prison overcrowding and other matters report.

<https://www.ombudsman.qld.gov.au/ArticleDocuments/586/Prison%20overcrowding%20and%20other%20matters%20report%20PUBLIC.PDF.aspx?embed=Y>.

<sup>111</sup> The impact on services includes significant issues with access to healthcare, employment, education, recreation, programs, support services and visits. WA: see page 23 in Office of the Inspector of Custodial Services. (2024). *2023-2024 Annual Report*. Government of Western Australia. <https://www.oics.wa.gov.au/wp-content/uploads/2024/10/2023-24-Annual-Report-Final.pdf>; Qld: Queensland Ombudsman. (2024). *Prison overcrowding and other matters report*. <https://www.ombudsman.qld.gov.au/publications/ombudsman-investigative-reports/prison-overcrowding-and-other-matters-report>; Other essential services include access to disability supports for individuals on remand, while incarcerated, preparing for a post release: Commonwealth of Australia. *Royal Commission into Violence, Neglect, Abuse and Exploitation of People with Disability: Final Report Vol 8*. Australian Government. <https://disability.royalcommission.gov.au/publications/final-report-volume-8-criminal-justice-and-people-disability>.

<sup>112</sup> See for example in WA: Office of the Inspector of Custodial Services. (2022). The use of confinement and management regimes. Government of Western Australia. [https://www.oics.wa.gov.au/wp-content/uploads/2022/11/2022\\_10\\_03-FINAL-Use-of-Confinement-and-Management-Regimes-v2.pdf](https://www.oics.wa.gov.au/wp-content/uploads/2022/11/2022_10_03-FINAL-Use-of-Confinement-and-Management-Regimes-v2.pdf); Shine, R. (2024 November 6). Inspector of Custodial Services says Hakea Prison 'under great strain' due to overcrowding, unhygienic conditions. *ABC News*. <https://www.abc.net.au/news/2024-11-06/hakea-prison-under-strain-overcrowding-inspector-report/104568946>; NT: see pages 5-6 in Ombudsman NT. (2024). *Separate Confinement: a Thematic Investigation into Practices in Darwin Correctional Centre*. [https://ombudsman.nt.gov.au/\\_data/assets/pdf\\_file/0011/1379180/Separate-Confinement-report.pdf](https://ombudsman.nt.gov.au/_data/assets/pdf_file/0011/1379180/Separate-Confinement-report.pdf).

<sup>113</sup> For example, record high prison population numbers in Western Australia have led to infrastructure pressures, resultant harmful practices such as increased lockdowns, and "a concerning deterioration in conditions": pages 2, 23 and 28 in Office of the Inspector of Custodial Services. (2024). *2023-2024 Annual Report*. Government of Western Australia. <https://www.oics.wa.gov.au/wp->

[content/uploads/2024/10/2023-24-Annual-Report-Final.pdf](#).

Existing infrastructure issues are compounded for prisons which are already no longer fit for purpose: see for example Hemmings, T. (2025, February 25). Prison inspector calls for shuttering of 'dilapidated' 19th century Bathurst jail wings. *ABC News*.

<https://www.abc.net.au/news/2025-02-25/inspector-custodial-service-close-bathurst-jail/104972750>; Sadler, D. (2025, April 2). Australia's 'worst prison' not closing anytime soon. *The Justice Map*. [https://thejusticemap.substack.com/p/australias-worst-prison-not-closing?utm\\_campaign=post&utm\\_medium=web&triedRedirect=true](https://thejusticemap.substack.com/p/australias-worst-prison-not-closing?utm_campaign=post&utm_medium=web&triedRedirect=true).

Further, some jurisdictions are continuing to detain people in unfit-for-purpose police watch houses for prolonged periods: Dick, S. (2025, January 30). 'Terrible' NT prison conditions prompt human rights plea to United Nations. *ABC News* <https://www.abc.net.au/news/2025-01-30/nt-prison-conditions-watch-houses-yingiya-guyula/104871668>; Colling, T. (2025, February 11). Peak NT Aboriginal bodies say Alice Springs watch house conditions 'inhumane'. *ABC News*.

<https://www.abc.net.au/news/2025-02-11/alice-springs-nt-watch-house-conditions-apont-inhumane/104922330>. Prison overcrowding in the Northern Territory has led to the only facility for prisoners with cognitive disabilities and complex mental illnesses instead being used for overflowing general prison population: Lathouris, O. (2025, January 17). NT prison crisis sees mentally disabled inmates held with general population, sparking human rights concerns. *ABC News*. <https://www.abc.net.au/news/2025-01-17/nt-prison-mental-health-facility-closed-torture/104823964>.

Such conditions contribute to unrest within prisons and increased instances of self-harm and suicide: see page 2 Office of the Inspector of Custodial Services. (2024). *2023-2024 Annual Report*. Government of Western Australia. <https://www.oics.wa.gov.au/wp-content/uploads/2024/10/2023-24-Annual-Report-Final.pdf>

<sup>114</sup> Australia's world leading response to blood-borne viruses and sexually transmitted infections relies on evidence-based treatments and preventative measures, including the needle and syringe program (NSP). NSPs in prisons are an essential preventative health measure, yet progress is lacking.

<sup>115</sup> Incarcerated people are prevented from accessing Medicare services and the Pharmaceutical Benefits Scheme, as well as any supports they may receive under the National Disability Insurance Scheme. There is a significant gap in the delivery of culturally safe healthcare for First Nations people: See pages 16-17 in Sotiri, M. & Schetzer, L. (2024). *Adult imprisonment in Australia: A discussion paper*. Justice Reform Initiative. [https://assets.nationbuilder.com/justicereforminitiative/pages/441/attachments/original/1720408746/JRI\\_PRISONS\\_JUNE\\_2024.pdf?1720408746](https://assets.nationbuilder.com/justicereforminitiative/pages/441/attachments/original/1720408746/JRI_PRISONS_JUNE_2024.pdf?1720408746).

<sup>116</sup> One in seven people nationally injects drugs whilst imprisoned, some for the first time. Australian prisons feature higher rates of blood-borne viruses than the general population and people who use drugs are over-represented. Hepatitis C remains a significant public health concern in custodial settings due in no small part to barriers in accessing evidence-based harm reduction measures including sterile injecting equipment. People in prisons are the population most at risk of Hepatitis C. Evidence-based harm reduction measures in Australian prisons and other places of detention are an essential component of Australia's STI and BBV responses, is a and necessary preconditions to the elimination of hepatitis and virtual elimination of HIV transmission by 2030: see Hepatitis Australia and Hepatitis ACT. (2025). *Healthy Prison Review of the Alexander Maconochie Centre: Joint submission from Hepatitis Australia and Hepatitis ACT*. <https://www.hepatitisaustralia.com/Handlers/Download.ashx?IDMF=bc9ffaed-188c-4d5f-a1cc-05a0e7b5c39d>; Department of Health and Aged Care. (2024). *Ninth National HIV Strategy: 2024-2030*. Australian Government.

<https://www.health.gov.au/resources/publications/ninth-national-hiv-strategy-2024-2030?language=en>

<sup>117</sup> Only 6 of 9 jurisdictions have established National Preventive Mechanisms, they are not adequately funded and resourced and there is no clear or comprehensive legislative framework to support the NPM system: pages 7-9 in Australian National Preventive Mechanism. (2023). *Monitoring places of detention under the Optional Protocol to the Convention against Torture: Annual Report of the Australian Preventive Mechanism 1 July 2023- 30 June 2024*. [https://www.ombudsman.gov.au/\\_data/assets/pdf\\_file/0018/317160/Australian-NPM-Annual-Report-2023-24.pdf](https://www.ombudsman.gov.au/_data/assets/pdf_file/0018/317160/Australian-NPM-Annual-Report-2023-24.pdf). The Australian Human Rights Commission has set out a comprehensive plan for implementation of the OPCAT which should be followed: Australian Human Rights Commission. (2022). *Road Map to OPCAT Compliance*.

[https://humanrights.gov.au/sites/default/files/opcat\\_road\\_map\\_0.pdf](https://humanrights.gov.au/sites/default/files/opcat_road_map_0.pdf). In 2023, the Sub-Committee on the Prevention of Torture also suspended its official visit to Australia citing lack of cooperation and access to certain areas of detention, and criticized Australia for breaching its obligations under OPCAT, see: United Nations Human Rights Office of the High Commissioner. (2023). *UN torture prevention body terminates visit to Australia, confirms missions to South Africa, Kazakhstan, Madagascar, Croatia, Georgia, Guatemala, Palestine, and the Philippines*. <https://www.ohchr.org/en/press-releases/2023/02/un-torture-prevention-body-terminates-visit-australia-confirms-missions>; see [6] in Subcommittee on Prevention of Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment. (2023). *Visit to Australia undertaken from 16-23 October 2022: recommendations and observations addressed to the State party* CAT/OP/AUS/ROSP/1. United Nations. <https://digitallibrary.un.org/record/4030535?ln=en&v=pdf&files>

<sup>118</sup> The Australian Government should ensure legislation implementing OPCAT applies to 'non-traditional' sites of detention, such as disability group homes, aged care homes and mental health facilities, rather than only 'traditional sites' such as prisons and immigration detention. See also recommendation 11.7(b) from the Victorian Government, *Victorian Government response to the Royal Commission into Violence, Abuse, Neglect and Exploitation of People with Disability*, 2024 that "The Australian Government and state and territory governments should enact legislation incorporating a broader definition of 'places of detention' to enable all places where people with disability may be deprived of their liberty to be monitored by National Preventive Mechanism bodies."

<sup>119</sup> United Nations. (1948). *Universal Declaration of Human Rights*, Article 21. <https://www.un.org/en/about-us/universal-declaration-of-human-rights>; United Nations. (1966). *International Covenant on Civil and Political Rights*, Article 25. <https://www.ohchr.org/en/instruments-mechanisms/instruments/international-covenant-civil-and-political-rights>; United Nations. (2006). *Convention on the Rights of Persons with Disabilities*, Article 29. <https://www.un.org/development/desa/disabilities/convention-on-the-rights-of-persons-with-disabilities/article-29-participation-in-political-and-public-life.html>.

<sup>120</sup> For prisoners, disenfranchisement varies by jurisdiction: while South Australia and the ACT protect prisoners' right to vote regardless of sentence length, federal law and most state/territory laws remove voting rights for sentences over specified periods (three years federally, varying from one to five years in different states), affecting approximately 10,000 prisoners in the 2022 Federal election. People serving a prison sentence of three years or longer in Australia, regardless of jurisdiction, are not eligible to vote in federal elections or referendums until they are released [*Commonwealth Electoral Act 1918* (Cth)]. In the 2022 Federal election this saw approximately 10,000 prisoners disenfranchised. Only South Australia and the Australian Capital Territory protect prisoners' right to vote regardless of sentence length. In the Northern Territory, where [more than 1 percent of the total population is currently imprisoned](#) and [84 percent of adult prisoners are Aboriginal and Torres Strait Islander](#), prisoners serving a sentence of three years or more are ineligible to vote [*Electoral Act 2004* (NT)]. In New South Wales prisoners serving a sentence of 12 months or more are ineligible to vote [*Parliamentary Electorates and Elections Act 1912* (NSW)]. In Victoria prisoners serving a sentence of five years months or more are ineligible to vote [*Electoral Act 2002* (VIC)]. In Queensland prisoners serving a sentence of three years or more are ineligible to vote [*Electoral Act 1992* (QLD)]. In Western Australia

prisoners serving a sentence of one year or more are ineligible to vote [*Electoral Act 1907 (WA)*]. In Tasmania prisoners serving a sentence of three years months or more are ineligible to vote [*Electoral Act 2004 (TAS)*].

<sup>121</sup> Section 93(8)(a) of the *Commonwealth Electoral Act 1918* continues to be used to prevent some Australians from exercising their right to vote because they can be deemed to be of 'unsound mind'. This has a disproportionate impact on people with intellectual disabilities and cognitive impairments. Between 2008-2012, more than 28,000 people were removed from the electoral roll due to the "unsound mind" provisions. Successive Australian governments have consistently failed to act on the Australian Law Reform Commission's 2014 '*Equality, Capacity and Disability in Commonwealth Laws*' [report](#). This report called for section 93(8) of the *Electoral Act* to be amended to: (i) focus on a person's decision-making ability with respect to enrolment and voting in the relevant election; and (ii) give consideration for decision making support and assistance when determining if a person meets the threshold.

<sup>122</sup> Including Aboriginal and Torres Strait Islander people, people with disabilities, those in aged care or hospital and prisoners. Many Aboriginal and Torres Strait Islander people in Australia are unable to exercise their right to vote due to requirements for identification documents that some Indigenous people do not have. The Australian Electoral Commission does not use auto-enrolment processes for parts of remote Australia, creating a further barrier to voting that disproportionately impacts Aboriginal and Torres Strait Islander people. While 97.8 percent of eligible Australians are enrolled to vote, only 92.9% of Aboriginal and Torres Strait Islander Australians are enrolled to vote as [at 20 June 2024]. In Western Australia just 86.1 percent and in the Northern Territory just 87.9 percent of Aboriginal and Torres Strait Islander Peoples have been able to enrol to vote [as at 30 June] See Australian Electoral Commission data : Australian Electoral Commission. (2024). *Indigenous enrolment rate* (Updated at 3 September 2024) [Dataset].

[https://www.aec.gov.au/Enrolling\\_to\\_vote/Enrolment\\_stats/performance/indigenous-enrolment-rate.htm](https://www.aec.gov.au/Enrolling_to_vote/Enrolment_stats/performance/indigenous-enrolment-rate.htm). For a considerable proportion of Aboriginal and Torres Strait Islander people, English is not the language spoken at home – and who may be additionally excluded from voting due to different levels of English literacy. In the 2021 Census, a total of 88,370 Aboriginal and Torres Strait Islander people (11.4% of the population) reported speaking a language other than English at home, whatever the language and whatever their proficiency in English. See NLAS. (2025). *NLAS (Aboriginal & Torres Strait Islander peoples)*. [https://lawfoundation.net.au/wp-content/uploads/2025/02/NLASAboriginal-and-Torres-Strait-Islander-peoples\\_for-publication.pdf](https://lawfoundation.net.au/wp-content/uploads/2025/02/NLASAboriginal-and-Torres-Strait-Islander-peoples_for-publication.pdf); People with physical disabilities are inadequately catered for by federal and state/territory electoral processes: See Committee on the Rights of Persons with Disabilities, *Views: Communication No 19/2014*, UN Doc CRPD/C/19/D/19/2014 (29 March 2018) ('*Given v Australia*'). In addition to laws that disenfranchise prisoners according to length of sentence, there are also significant participation issues among eligible voters in prison, with issues around enrolling and accessing the material needed to place a vote. In the 2013 election, only three people in the entire Silverwater Correctional Centre voted in the federal election. And it was revealed in 2017 that correctional service officers in several states had barred Australian Electoral Commission staff from entering prisons, preventing them from enrolling people to vote and helping them to cast a ballot.

<sup>123</sup> At the time of the referendum for an Indigenous Voice to parliament in 2023 there were an estimated 13,000 Aboriginal and Torres Strait Islander people incarcerated, many of whom were serving sentences in excess of three years. Many more Aboriginal and Torres Strait Islander people were impacted by barriers to voter enrolment, including requirements for identification documents

<sup>124</sup> The National Action Plan must include implementation of the Inquiry into the Conduct of the 2022 Federal Election (For a full list of the recommendations, see: Joint Standing Committee on Electoral Matters. (2023). *Conduct of the 2022 federal election and other matters: List of recommendations*. Parliament of Australia.

[https://www.aph.gov.au/Parliamentary\\_Business/Committees/Joint/Electoral\\_Matters/2022federalection/Conduct\\_of\\_the\\_2022\\_federal\\_elction\\_and\\_other\\_matters/List\\_of\\_recommendations](https://www.aph.gov.au/Parliamentary_Business/Committees/Joint/Electoral_Matters/2022federalection/Conduct_of_the_2022_federal_elction_and_other_matters/List_of_recommendations) and The UN Committee on the Rights of Persons with Disabilities in Relation to Accessible Voting (See Committee on the Rights of Persons with Disabilities, *Views: Communication No 19/2014*, UN Doc CRPD/C/19/D/19/2014 (29 March 2018) ('*Given v Australia*').

<sup>125</sup> New South Wales continues to be the jurisdiction with the most restrictive anti-protest law, and has recently introduced Crimes Amendment (Places of Worship) Bill 2025 giving expanded powers to police to shut down protests. South Australia has introduced laws imposing fines of up to \$50,000 for peacefully obstructing any public place (<https://www.hrlc.org.au/reports-news-commentary/nsw-hate-speech-laws>). The South Australian laws disproportionately target environmental defenders and people advocating for action on climate change (see: Mejia-Canales, D. (2024). *Protest in peril: Our shrinking democracy*. Human Rights Law Centre. <https://www.hrlc.org.au/reports/protest-peril/>. Protest notification and pre-approval regimes are increasingly operating as de facto 'authorisation' systems, which runs counter to Australia's democratic obligations under international law. The use of permit systems as de facto authorisation regimes has had a particular influence on Aboriginal and Torres Strait Islander people with a Aboriginal and Torres Strait Islander group in the Northern Territory having been required to pay for their own traffic control in January 2024 as a precondition to obtaining authorisation from police to carry out protests when there are no recorded instances of other groups having to do so (see Grata Fund, Australian Democracy Network. (2024). *In defence of dissent*. <https://raisely-images.imgix.net/australian-democracy-network/uploads/in-defence-of-dissent-adn-grata-fund-2024-pdf-890653.pdf>).

<sup>126</sup> The rate at which people are being sentenced to imprisonment after engaging in peaceful protest is intensifying with a ten-fold increase in total length of imprisonment sentences given to activists in 2021-25 compared to in the decade prior (See, Grata Fund, Australian Democracy Network. (2024). *In defence of dissent*. <https://raisely-images.imgix.net/australian-democracy-network/uploads/in-defence-of-dissent-adn-grata-fund-2024-pdf-890653.pdf>). Police have exercised heavy-handed strategies at protests, including the deployment of OC spray, tear gas, batons, rubber bullets and flash-bang grenades, as well as kettling protestors, including very young children (see pages 9 and 31: Grata Fund, Australian Democracy Network. (2024). *In defence of dissent*. <https://australiandemocracy.org.au/indefenceofdisentreport>.

<sup>127</sup> Melbourne Activist Legal Support.(2025). *The Policing of the DLF Protests*. <https://mals.au/2025/01/27/legal-observer-report-the-policing-of-the-disrupt-land-forces-dlf-protests/documents> the excessive and dangerous use of force by Victoria Police at protests, including chemical irritants (OC foam, pepperball guns), explosive disorientation devices (flash-bangs), kinetic impact projectiles (rubber bullets), and physical crowd control tactics (riot shields, mounted police, batons). MALS observed these weapons being used indiscriminately, at close range, and often in retaliation rather than in response to violence, resulting in significant harm to protesters, legal observers, children, and people with disability. See: Melbourne Activist Legal Support. (2025). *The Policing of the DLF Protests*. [https://mals.au/files/2025-01\\_MALS-ThePolicingOfTheDLFProtests.pdf](https://mals.au/files/2025-01_MALS-ThePolicingOfTheDLFProtests.pdf)

<sup>159</sup> In November 2023, the High Court of Australia ruled that immigration detention will not be constitutionally permissible where there is no real prospect that a person's removal from Australia will become practicable in the reasonably foreseeable future. For more information see: *NZYQ v Minister for Immigration, Citizenship and Multicultural Affairs* [2023] HCA 37; Abeyratna, R. (2023). Indefinite Detention and NZYQ. *UNSW Human Rights Institute*. <https://www.humanrights.unsw.edu.au/students/blogs/indefinite-detention-nzyq>; Human Rights Law Centre. (2023). *High Court Ruling on NZYQ*. <https://www.hrlc.org.au/reports-news-commentary/2023/11/29/explainer-high-court-ruling-in-nzyq>.

<sup>160</sup> Including for recognised refugees.

<sup>161</sup> In November 2024, the Australian Government rushed the passage of three migration laws despite strong community opposition and evidence of their long-term harmful impacts. These laws included: the *Migration Amendment Act 2024* (Cth), which enables the Australian Government to pay third countries to agree to accept people being removed from Australia, violating non-refoulement obligations through the risk of chain refoulement, and expands powers to reverse refugee protection findings and share personal data; the *Migration Amendment*

(*Prohibiting Items in Immigration Detention Facilities*) Act 2024 (Cth), which allows the Minister to ban or confiscate almost any item in immigration detention (including everyday items such as mobile phones) and authorises warrantless searches and seizures in detention; and the *Migration Amendment (Removal and Other Measures) Act 2024* (Cth), which criminalises non-compliance with removal directions and permits visa bans on nationals from designated countries. See more: Human Rights Law Centre. (2024). *Indefinite Detention and Third Country Removal Laws*. <https://www.hrlc.org.au/reports-news-commentary/2024/03/26/indefinite-detention>; Forcibly Displaced People Network. (2024). *Submission to the Inquiry into the Migration Amendment (Removal And Other Measures) Bill 2024*. <https://www.fdpn.org.au/wp-content/uploads/2024/06/2024-FDPN-submission-deportation-bill.pdf>; Forcibly Displaced People Network. (2024). *Impact on LGBTIQ Refugees: Stop Harmful Migration Bills*. <https://www.fdpn.org.au/opinion-pieces/impact-of-lgbtqi-refugees-stop-harmful-migration-bills/>. In 2025, Minister for Home Affairs announced that three people would be removed to Nauru. These laws enable such deportations without due process. See: Keny, M., & van Toor, L. (2025, February 18). Australia is deporting 3 non-citizens from the 'NZYQ' group to Nauru. What could it do instead? *The Conversation*. <https://theconversation.com/australia-is-deporting-3-non-citizens-from-the-nzyq-group-to-nauru-what-could-it-do-instead-250053>

<sup>162</sup> The imposition of curfew and electronic monitoring was held unconstitutional by the High Court of Australia in *YBFZ v Minister for Immigration, Citizenship and Multicultural Affairs* [2024] HCA 40. See: Human Rights Law Centre. (2024). *Summary: High Court's decision in YBFZ v Minister for Immigration*. <https://www.hrlc.org.au/explainers/2024-11-6-ybfz-high-court/>. However, the same visa conditions were subsequently re-introduced with a re-formulated test for their imposition in the *Migration Amendment Act 2024* (Cth).

<sup>163</sup> The Legacy Caseload law created a sub-standard protection assessment process deemed a way to 'fast track' the asylum claims of people who arrived by sea without a prior visa. The Fast Track assessment has been criticised by members of the current Government for not providing fair, thorough, or robust assessments for people seeking asylum (see page 24: Labor Party. (2021). *ALP National Platform, As Adopted at the 2021 Special Platform Conference*. <https://alp.org.au/media/2594/2021-alp-national-platform-final-endorsed-platform.pdf>.) and was formally abolished in 2024 (*Administrative Review Tribunal (Consequential and Transitional Provisions No. 1) Act 2024* (Cth)). However, people who already had their claims unfairly refused under this system were offered no remedy. While a small number of people in these circumstances have recently been granted permanent visas or been invited to apply for permanent visas, there remains no consistent or systematic pathway to permanency for the cohort as a whole.

<sup>164</sup> Australia has implemented policies that differentiate and discriminate between asylum seekers based on their mode of arrival. People seeking asylum who arrive by boat as Irregular Maritime Arrivals (IMA) are subject to mandatory detention, offshore processing, and are denied the opportunity to settle in Australia. People seeking asylum who arrive in Australia by air without a valid visa are also unauthorised, and subject to mandatory detention and temporary protection visa regime. In contrast, those arriving with valid visas, can apply for permanent protection, are not subject to mandatory detention (onshore or offshore), and have their asylum claims processed in Australia.

<sup>165</sup> The implementation of this recommendation must also establish a statelessness determination process that ensures a pathway to permanency and citizenship. It is worth noting, 20,000 permanent Resolution of Status visas have been granted to people previously on Temporary Protection Visas and Safe Haven Enterprise Visas. However, recognised refugees still face discriminatory policies that prevent family reunification. Overall, the legislative framework for temporary protection still exists, meaning that certain refugees who arrive in Australia will continue to be denied durable protection. See more: Asylum Seekers Resource Centre. (2024). *Briefing paper - People failed by Fast Track*. <https://asrc.org.au/wp-content/uploads/2024/09/Briefing-paper-People-failed-by-Fast-Track.docx.pdf>.

<sup>166</sup> People seeking asylum in Australia are excluded from mainstream social safety net. Thousands of individuals seeking refugee protection in Australia are experiencing acute poverty and homelessness, including families, people with chronic health conditions, and women fleeing domestic and family violence. Those undergoing judicial review or requesting Ministerial intervention are classified by the Government as "finally determined" and are excluded from government-funded income support. The denial of work rights further entrenches destitution and increases the risk of exploitation and modern slavery (Asylum Seekers Resource Centre. (2023). *Poverty through policy: the impact of excluding people seeking asylum from mainstream social support*. [https://asrc.org.au/wp-content/uploads/2023/04/ASRC\\_Policy\\_Through\\_Poverty\\_Finalv1.pdf](https://asrc.org.au/wp-content/uploads/2023/04/ASRC_Policy_Through_Poverty_Finalv1.pdf)). A 2021 report has found that since arriving in Australia, 55% of people seeking asylum had experienced some form of homelessness and 21% reported being homeless in 2020 (Asibey, B., Conroy, E. & Ucak, A. (2021). *A place to call home: a pilot survey of people seeking asylum in Greater Sydney*. Jesuit Refugee Service and Western Sydney University. <https://aus.jrs.net/wp-content/uploads/sites/20/2021/08/A-Place-to-Call-Home-Survey-Findings.pdf>). A 2023 study reported that 35% of LGBTQIA+ refugees had been homeless in the past or are currently homeless, with one third being trans people (Cochrane, B., Dixon, T., Dixon, R. (2023). *"Inhabiting Two Worlds At Once": Survey on the experiences of LGBTQIA+ settlement in Australia*. Forcibly Displaced People Network <https://www.fdpn.org.au/lgbtqiqa-settlement-report/>).

<sup>167</sup> Welcoming Disability. (2023). *Review of Australia's visa significant cost threshold*. <https://alhr.org.au/wp-content/uploads/2023/11/Reduced-Welcoming-Disability-Submission-to-DoH-2023-ReviewF4.docx.pdf>. Additionally, visa refusals based on perceived healthcare costs is allowed under *Disability Discrimination Act 1992* (Cth) and *Migration Act 1958* (Cth). See: Women With Disabilities Australia. (2023). *Submission to the call for comments on Australia's progress on the implementation of recommendations received by Australia – third-cycle Universal Periodic Review*. <https://wwda.org.au/wp-content/uploads/2024/03/WWDA-Submission-Response-to-call-for-comments-3rd-Cycle-UPR.pdf>

<sup>168</sup> The National Disability Insurance Scheme (NDIS) provides support to eligible people with disability. People seeking asylum and temporary visa holders, including those on temporary protection visas, are excluded from access, based on their visa status. See more at: National Ethnic Disability Alliance, Federation of Ethnic Communities' Councils of Australia, Refugee Council of Australia, Settlement Council of Australia. (2019). *Barriers and exclusions: The support needs of newly arrived refugees with a disability*. [https://neda.org.au/wp-content/uploads/2023/06/Report-Barriers-and-Exclusions\\_-The-support-needs-of-newly-arrived-refugees-with-a-disability-02-2019-1.pdf](https://neda.org.au/wp-content/uploads/2023/06/Report-Barriers-and-Exclusions_-The-support-needs-of-newly-arrived-refugees-with-a-disability-02-2019-1.pdf). Additionally, migrants with disability must have resided in Australia for 10 years, before they can become eligible for disability support pension (Services Australia. *Disability Support Pension Residency Rules*. <https://www.servicesaustralia.gov.au/residence-rules-for-disability-support-pension?context=22276#:~:text=To%20get%20DSP%20you%20generally,establish%20your%20Australian%20residence%20history.>)

<sup>169</sup> A safety net refers to income support, full work and study rights, and access to Medicare. Implementing this recommendation Australia must ensure that all people seeking asylum irrespective of their visa status and/or processing stage are included; and that they have access to financial assistance, mainstream social support, sustainable housing and healthcare. The implementation of this recommendation is consistent with Australia's obligations under the International Covenant on Economic, Social and Cultural Rights.

<sup>170</sup> Despite forming between 3% and 6% of all displaced people, LGBTQIA+ refugees and people seeking asylum are not receiving fair treatment or achieving equitable outcomes when settling in Australia. The Australian Government neither collects data on LGBTQIA+ refugees nor mandates settlement services to be trained and inclusive. According to the 2023 study 67% of LGBTQIA+ refugees and people seeking asylum reported discrimination when accessing social and community services. The lack of tailored services and negative service experience, result in LGBTQIA+ forcibly displaced people experiencing unequal settlement outcomes. Discrimination against LGBTQIA+ refugees and people seeking asylum is pervasive across all areas of lives with 69% reporting discrimination on the basis of their LGBTQIA+

status, 85% on the basis of their race and/or migration status and 15% on the basis of their disability (Cochrane, B., Dixon, T., Dixon, R. (2023). *Inhabiting Two Worlds At Once*: Survey on the experiences of LGBTIQ+ settlement in Australia. Forcibly Displaced People Network. <https://www.fdpn.org.au/lgbtiqa-settlement-report/>).

<sup>171</sup> RSD stands for refugee status determination.

<sup>172</sup> SOGIESC stands for sexual orientation, gender identity and expression and sex characteristics. While the Department of Home Affairs has issued best practice guidelines for handling SOGIESC-related protection claims, these guidelines are non-binding and inconsistently implemented. Recently, there have been many instances where decisions are made without interviews. Refugee Advice and Casework Service. (2024). *Submission to the Australian Human Rights Commission: Current and Emerging Threats to TGD Human Rights*. <https://www.racs.org.au/advocacy/tgd-rights>

<sup>173</sup> GBV affects 42% of female refugees: Segrave, M., Wickes, R., and Keel, C. (2021) *Migrant and Refugee Women in Australia: The Safety and Security Survey*. Monash University. <https://doi.org/10.26180/14863872>; Alarcon Lopez, N., Keel, C., Segrave, M., Tan, S. & Wickes, R. (2024). *Migrant and Refugee Women: A national study of experiences, understandings and responses to sexual harassment in the workplace*, Final Report. Australia's National Research Organisation for Women's Safety. [https://anrows-2019.s3.ap-southeast-2.amazonaws.com/wp-content/uploads/2024/08/19203606/ANROWS\\_Segrave\\_Migrant\\_Refugee\\_Sexual\\_Harassment\\_REPORT\\_2024.pdf](https://anrows-2019.s3.ap-southeast-2.amazonaws.com/wp-content/uploads/2024/08/19203606/ANROWS_Segrave_Migrant_Refugee_Sexual_Harassment_REPORT_2024.pdf).

<sup>174</sup> GBV affects 60% of LGBTQIA+ refugees with the rates of violence being higher than the national averages and those of non-LGBTQIA+ refugees, yet only 17% seek support, with most turning to counselling or friends rather than formal services. For transgender refugees and people seeking asylum, the prevalence of GBV in Australia rose to 75% (Cochrane, B., Dixon, T., Dixon, R. (2023). *Inhabiting Two Worlds At Once*: Survey on the experiences of LGBTIQ+ settlement in Australia. Forcibly Displaced People Network. <https://www.fdpn.org.au/lgbtiqa-settlement-report/>).

<sup>175</sup> Refugee Advice and Casework Service. (2024). *Submission to the Australian Law Reform Commission: Justice responses to Sexual Violence*. <https://www.racs.org.au/advocacy/sv-inquiry>;

Australian Law Reform Commission. (2025). *Safe, Informed, Supported: Reforming Justice Responses to Sexual Violence – Final Report*. Australian Government. <https://www.alrc.gov.au/wp-content/uploads/2025/02/JRSV-Final-Report-Book-for-Web-final-20250211.pdf>

<sup>176</sup> People with intellectual disability, particularly women and girls, face increased risk of forced marriage due to reliance on family members or carers, limited access to appropriate support services, and the absence of mechanisms to ensure informed consent. Although forced marriage is recognised under Australia's national anti-slavery frameworks, the specific vulnerabilities of people with disability remain under-addressed in prevention efforts, implementation strategies, and national data collection. (People with Disability Australia, Women With Disabilities Australia, National Ethnic Disability Alliance, and Inclusion Australia. (2024). *Submission to the Australian Government's Forced Marriage Consultation Paper*. [https://pwd.org.au/wp-content/uploads/2024/10/PWDA\\_LT\\_Federal-Forced-Marriage-Consultation-2024-09-17v2.pdf](https://pwd.org.au/wp-content/uploads/2024/10/PWDA_LT_Federal-Forced-Marriage-Consultation-2024-09-17v2.pdf)). LGBTQIA+ refugees and people seeking asylum report experiences of forced marriage in Australia which is practices as a form of sexuality and gender identity conversion practices. The 2023 study has shown that all respondents who reported experiencing sexuality and gender identity conversion practices, also reported arranged or forced marriage in Australia (Cochrane, B., Dixon, T., Dixon, R. (2023) *Inhabiting Two Worlds At Once*: Survey on the experiences of LGBTIQ+ settlement in Australia. Forcibly Displaced People Network. <https://www.fdpn.org.au/lgbtiqa-settlement-report/>; Forcibly Displaced People Network. (2024). *Submission to the ACT Legislative Review of the Sexuality and Gender Identity Conversion Practices Act 2020*. ) <https://www.fdpn.org.au/publications/2024-act-sexuality-and-gender-identity-conversion-practices-act-2020-review/>).

<sup>177</sup> Systemic racism is deeply imbedded in in policies, practices, and social structures including in immigration, employment, education, healthcare, housing, regional, rural, remote and very remote populations and the criminal legal system; Committee on the Elimination of Racial Discrimination. (2009). *General recommendation No. 32: The meaning and scope of special measures in the International Convention on the Elimination of All Forms of Racial Discrimination*. United Nations. [https://adsdatabase.ohchr.org/IssueLibrary/CERD\\_Recommendation%20No32.pdf](https://adsdatabase.ohchr.org/IssueLibrary/CERD_Recommendation%20No32.pdf); United Nations. (1965). *International Convention on the Elimination of All Forms of Racial Discrimination*. <https://www.ohchr.org/en/instruments-mechanisms/instruments/international-convention-elimination-all-forms-racial>

[https://humanrights.gov.au/sites/default/files/2024-11/NARF%20Report%20Summary%202024\\_6pp\\_DIG\\_ACCESS.pdf](https://humanrights.gov.au/sites/default/files/2024-11/NARF%20Report%20Summary%202024_6pp_DIG_ACCESS.pdf); Muralidharan, P., Hosseini, Y., & Arashiro, Z. (2024). *An anti-racism framework: Experiences and perspectives of multicultural Australia: Report on the national community consultations*. Federation of Ethnic Communities' Councils of Australia. [https://humanrights.gov.au/sites/default/files/document/publication/an\\_anti-racism\\_framework\\_community\\_consultations\\_report.pdf](https://humanrights.gov.au/sites/default/files/document/publication/an_anti-racism_framework_community_consultations_report.pdf).

<sup>179</sup> Australian Human Rights Commission. (2024). *The National Anti-Racism Framework: A roadmap to eliminating racism in Australia*. <https://humanrights.gov.au/anti-racism-framework>. The National Anti-Racism Framework also contends that interpersonal racism "towards different groups ... [intensifies] in different historical moments. An example of this is the recent spike in antisemitism and Islamophobia [since October 2023]." (see page 38). Australia must combat all forms of interpersonal racism fairly, proportionately, and without politicisation or creation of perceived racial hierarchies.

<sup>180</sup> The most extreme example being processing times for Parent visas, which have reached up to 31 years as of May 2025: Department of Home Affairs. (2025). *Parent visas – queue release dates and processing times*. Australian Government. <https://immi.homeaffairs.gov.au/visas/getting-a-visa/visa-processing-times/family-visa-processing-priorities/parent-visas-queue-release-dates>. Even family visas which are not subject to capping and queuing arrangements involve processing practices and administrative hurdles that create extreme delays disproportionately impacting CALD communities.

<sup>181</sup> Large backlogs also have other discriminatory consequences. For example, the 8-year Carer visa backlog punishes Australian citizens and permanent residents with disabilities who cannot access the care they need from another relative or welfare, hospital or community nursing service in Australia: Department of Home Affairs. (2025). *Visa processing times*. Australian Government. ; Department of Home Affairs. (2024). *Subclass 836: Carer visa*. <sup>203</sup> Including through civil society.

<sup>204</sup> Currently A/HRC/RES/58/L.24/Rev.1 noting A/RES/78/324 and A/RES/79/147.

<sup>205</sup> National disability representative organisations including those representing First Nations and people in remote and rural areas, have expressed significant concern that only 13 recommendations of 222 have been fully accepted [Media Statement from Australia's Disability Representative Organisations regarding Government Response to Disability Royal Commission today Wednesday 31 July - People with Disability Australia](#), 2024.

<sup>206</sup> This reflects a broader stagnation of reform in disability policy. Despite extensive consultation on the [Disability Royal Commission](#), the [NDIS Review](#), the [review of Australia's Disability Strategy](#) and guardianship laws, very little has changed.

<sup>207</sup> Royal Commission Into Violence, Abuse, Neglect and Exploitation of People with Disability - [Final Report](#) - Executive Summary, Our Vision for an Inclusive Australia and Recommendations [2023] AUROYALC 5 (29 September 2023).

<sup>208</sup> Despite review in 2024, the [Australia's Disability Strategy](#) still does not apply a human rights framework.

<sup>209</sup> And other rights under CEDAW, CROC, DRIP and other obligations, to prevent violence and abuse against people with disability.

<sup>210</sup> People with disability across all age groups and locations experience more violence than people without disability, and more frequently. Note 3, 46; For women with disabilities, there is no specific strategy addressing violence in segregated and institutionalised settings, see, Women with Disabilities Australia. (2020). *Disability Rights Now 2019: UN CRPD Review of Australia, CRPD Factsheet 5, Violence against People with Disability*. [https://wwda.org.au/wp-content/uploads/2020/08/Factsheet\\_No\\_5\\_Violence.pdf](https://wwda.org.au/wp-content/uploads/2020/08/Factsheet_No_5_Violence.pdf).

<sup>211</sup> First Nations people with disability are 'uniquely marginalised in Australia' facing 'over-representation in child protection and criminal legal systems, high rates of institutionalisation, child removal and economic exclusion', [Final Report - Volume 9, First Nations people with disability](#), 3.

<sup>212</sup> First Nations people with disability are overrepresented in the criminal legal system. In addition to the intersection of racism and ableism, the absence of appropriate disability services and supports for First Nations people with disability is one of the factors resulting in the criminalisation and incarceration of Indigenous people with disability, Walsh, C., Puszka, S., Markham, F., Barney, J., Yap, M., & Dreise, T. (2023). Supporting Indigenous people with disability in contact with the justice system: a systematic scoping review. *Disability & Society*, 39(10), 2697–2733. <https://doi.org/10.1080/09687599.2023.2215395>

<sup>213</sup> Groups impacted by implementation gaps in CRPD include Aboriginal and Torres Strait Islander People, and people living in regional, rural, remote, and very remote geographical areas and people from CALD backgrounds,. See, for example: Royal Commission Into Violence, Abuse, Neglect and Exploitation of People with Disability, [The experience of First Nations people with disability in Australia Issues paper](#), (June 2020); National Ethnic Disability Alliance (NEDA), People with Disability Australia (PWDA), and Federation of Ethnic Communities' Councils of Australia (FECCA), [The Experiences & Perspectives of People with Disability from Culturally and Linguistically Diverse Backgrounds: joint submission to the Royal Commission into Violence, Abuse, Neglect and Exploitation of People with Disability](#) (2021); Dew, Angela. 2022. "What, If Anything, Has Changed over the Past 10 Years for People with Intellectual Disabilities and Their Families in Regional, Rural, and Remote Geographic Areas?" *Research and Practice in Intellectual and Developmental Disabilities* 9 (2): 103–7; submissions to the Joint Standing Committee on the National Disability Insurance Scheme Inquiry into NDIS participant experience in rural, regional and remote areas (2023-2025).

<sup>214</sup> The practice of non-consensual administration of contraceptives, abortion and sterilisation of women with disabilities is ongoing, despite multiple reports, including the CEDAW recommendations to end these harmful practices. See Community Affairs References Committee (2013). *Involuntary or coerced sterilisation of people with disabilities in Australia*. Australian Government. [https://www.aph.gov.au/Parliamentary\\_Business/Committees/Senate/Community\\_Affairs/Involuntary\\_Sterilisation/~media/Committees/Senate/committee/clac\\_ctte/involuntary\\_sterilisation/first\\_report/report.ashx](https://www.aph.gov.au/Parliamentary_Business/Committees/Senate/Community_Affairs/Involuntary_Sterilisation/~media/Committees/Senate/committee/clac_ctte/involuntary_sterilisation/first_report/report.ashx).

Parents with disabilities, primarily mothers, are up to ten times more likely to have children removed from their care than other parents. See Carter, B. (2015). *Rebuilding the village: Supporting families where a parent has a disability* (Report 2: Child Protection). Office of the Public Advocate. <https://www.publicadvocate.vic.gov.au/opa-s-work/research/611-rebuilding-the-village-supporting-families-where-a-parent-has-a-disability>.

<sup>215</sup> People with disability from CALD backgrounds face additional barriers such as language and limited access to culturally appropriate advocacy.

<sup>216</sup> In residential institutions, special schools and for-profit disability enterprises.

<sup>217</sup> Kayess, R., & Sands, T. (2020). *Convention on the Rights of Persons with Disabilities: Shining a light on Social Transformation*. UNSW Social Policy Research Centre. <https://unswworks.unsw.edu.au/entities/publication/8095a82a-be1e-4b19-b4d5-7783b7a35900>.

<sup>218</sup> Particularly for First Nations people with disability and people in with disability in 4Rs areas. See submissions and evidence received by the [2023-5 federal Joint Standing Committee on the NDIS Inquiry into NDIS participant experience in rural, regional and remote Australia](#).

<sup>219</sup> Including changing NDIS eligibility criteria to cover children born in Australia to temporary visa holders.

<sup>220</sup> Recommendation 8.20 of the Disability Royal Commission calls on Australian and state and territory governments to codesign and implement strategies to improve policing responses to people with disability, including the establishment of Disability Liaison Officers and introducing alternative pathways for people with disability to report crimes to police should be immediately implemented. Recommendation 11.11 of the Disability Royal Commission calls on national Presentative Mechanism bodies to be disability inclusive in their implementation of OPCAT (Convention against torture and other cruel, inhumane degrading treatment or punishment, with particular reference to people with disability in places of detention. All governments should work more earnestly to implement this recommendation, noting that the incarceration of people with disability should be a last resort (when used at all) and that all governments should immediately cease the indefinite detention of people with disability; The DRC highlighted that First Nations people with disability are far more likely to have contact with the criminal justice system. See, Royal Commission into Violence, Abuse, Neglect and Exploitation of People with Disability. (2023). Final report – Volume 8: Criminal justice and people with disability. <https://disability.royalcommission.gov.au/publications/final-report-volume-8-criminal-justice-and-people-disability>.

This should include dedicated funding for LGBTQIA+ ACCOs, LGBTQIA+ Disabled Peoples Organisations and LGBTQIA+ refugee-led, migrant-led and people of colour led organisations.

<sup>229</sup> Pride by Side. (2024). *Pointing to Progress*. <https://www.pridebyside.org/pointingtoprogress>. Wark, T. and Sarasola, H. (2023). *Sydney World Pride Human Rights Conference – Gay Caucus Report*. ACON. <https://equalityaustralia.org.au/wp-content/uploads/2023/04/Gay-Caucus-Report.pdf>.

<sup>230</sup> In this context, ‘children’ refers to children and young people under the age of 18 years as defined in the *Convention on the Rights of the Child*, opened for signature 20 November 1989, 1577 UNTS 3 (entered into force 2 September 1990) (‘UNCRC’), and includes children throughout Australia, whether located in urban, regional, rural, remote and very remote areas.

<sup>231</sup> In breach of UNCRC (n 1) Article 12.

<sup>232</sup> Australia fails to adequately protect children’s right to be heard in administrative and judicial decisions about matters affecting them: see [22] in: UN Human Rights Office of the High Commissioner. (2019). Committee on the Rights of the Child: Concluding observations on the combined fifth and sixth periodic reports of Australia. United Nations. <https://www.ohchr.org/en/documents/concluding-observations/committee-rights-child-concluding-observations-combined-fifth-and-j>. Australia must provide systems and services that provide direct advocacy for children, including those that live in non-urban areas.

<sup>233</sup> See Climate Change section.

<sup>234</sup> See Refugees and People Seeking Asylum section, especially for legislative prohibition of detention.

<sup>235</sup> See Constitutional, Legislative and Institutional Framework section which discusses implementation of this recommendation.

<sup>236</sup> See page 16: SNAICC. (2025). *Family Matters Report 2024*. <https://www.snaicc.org.au/wp-content/uploads/2025/02/250207-Family-Matters-Report-2024.pdf>; Australian Government Institute of Health and Welfare. (2023). *Youth detention population in Australia 2023*. Australian Government. <https://www.aihw.gov.au/reports/youth-justice/youth-detention-population-in-australia-2023/contents/first-nations-young-people#How-many-First-Nations>.

(2024). *The School Exclusion Project*. <https://www.niyec.com/the-school-exclusion-project>; see Aboriginal and Torres Strait Islander Peoples section and the recommendation on working with Aboriginal community organisations to design programs to meet the needs of Aboriginal and Torres Strait Islander communities; At the time of submission, an Early Warning, Urgent Action complaint regarding Australia’s discriminatory youth justice policies is being considered by the UN Committee on the Elimination of Racial Discrimination (see: Human Rights Law Centre. (2024). *Urgent United Nations complaint about Australia’s youth justice policies*. <https://www.hrlc.org.au/reports/urgent-un-complaint/>).

<sup>238</sup> See page 12: Productivity Commission. (2024). *Review of the National Agreement on Closing the Gap* (Study report, volume 1, 2024). Australian Government. <https://www.pc.gov.au/inquiries/completed/closing-the-gap-review/report/closing-the-gap-review-report.pdf>. See particularly Targets 12 – ‘Children are not overrepresented in the child protection system’ and 13 ‘Families and households are safe’.

<sup>239</sup> For as long as criminalisation remains dominant policy. Sisters Inside, the National Network of Incarcerated & Formerly Incarcerated Women & Girls and Scarlet Alliance (Australian Sex Workers Association) maintain that Australia must cease incarcerating children of all ages, and instead develop and invest in safe and transformative solutions that keep our children in their homes, schools and communities, see, Thorpe, L. (2025). *Additional comments by Senator Lidia Thorpe*. In Senate Legal and Constitutional Affairs References Committee, *Interim report: Australia’s youth justice and incarceration system*. Parliament of Australia. [https://www.aph.gov.au/Parliamentary\\_Business/Committees/Senate/Legal\\_and\\_Constitutional\\_Affairs/Incarceration47/Interim\\_Report/Additional\\_Comments\\_by\\_Senator\\_Lidia\\_Thorpe](https://www.aph.gov.au/Parliamentary_Business/Committees/Senate/Legal_and_Constitutional_Affairs/Incarceration47/Interim_Report/Additional_Comments_by_Senator_Lidia_Thorpe).

<sup>240</sup> Raising the minimum age of criminal responsibility to at least 14 years would bring Australia in line with the recommendation of the UN Committee on the Rights of the Child (see Committee on the Rights of the Child, *General Comment No 24 (2019) on Children’s Rights in the Child Justice System*, UN Doc CRC/C/GC/24 (18 September 2019). The Australian Federal Government should take responsibility for ensuring the minimum age of criminal responsibility is raised across all Australian jurisdictions, through either the National Cabinet and/or Standing Council of Attorneys-General.

<sup>241</sup> Australia must withdraw its reservation to Art 37(c) CRC which requires children not be detained with adults.

<sup>242</sup> See also Constitutional, Legislative and Institutional Framework section and specifically the recommendation to appoint and support an NPM. An NPM is crucial to address human rights violations for children in detention, children in educational settings and children with disability. Many children with disability experience segregation and other human rights violations, including in education: Committee on the Rights of Persons with Disabilities, Concluding observations on the combined second and third periodic reports of Australia, 15 October 2019, [28]-[30], [45]-[46]; Committee on the Rights of the Child, Concluding observations on the combined fifth and sixth periodic reports of Australia (n 4) [43(c)].

Australian Government. <https://www.dss.gov.au/national-plan-end-gender-based-violence/resource/aboriginal-and-torres-strait-islander-action-plan-2023-2025>; and Australian Human Rights Commission. (2020). *Wiyi Yani U Thangani (Women's Voices): Securing Our Rights, Securing Our Future Final Report*. [https://humanrights.gov.au/sites/default/files/document/publication/ahrc\\_wiyi\\_yani\\_u\\_thangani\\_report\\_2020.pdf](https://humanrights.gov.au/sites/default/files/document/publication/ahrc_wiyi_yani_u_thangani_report_2020.pdf)); The National Agreement on Closing the Gap commits all governments to 17 socio-economic targets developed in partnership with Aboriginal and Torres Strait Islander representatives. Key targets relevant to women and girls include: Target 1 - Reduce the overrepresentation of Aboriginal and Torres Strait Islander adults in prison; Target 12 - Reduce overrepresentation of Aboriginal and Torres Strait Islander children in out-of-home care; Target 13 - Reduce family, domestic and sexual violence against Aboriginal and Torres Strait Islander women and children; Target 17 - Increase Aboriginal and Torres Strait Islander people employed in the community-controlled sector. The National Plan to End Violence Against Women and Children 2022–2032 is a 10-year strategy that outlines a national commitment to ending gender-based violence. It recognises the unique experiences of First Nations women and commits to trauma-informed, culturally safe, and community-led solutions. Priority is placed on intersectional approaches, First Nations leadership, and accountability across all levels of government. The Aboriginal and Torres Strait Islander Action Plan 2023–2025, developed under the National Plan, this targeted action plan provides a First Nations-specific roadmap to reduce violence and improve safety for women, children and families. It is the first of its kind to be developed in genuine partnership with Aboriginal and Torres Strait Islander stakeholders, and calls for investment in healing, prevention, safe housing, and culturally strong legal services. The Wiyi Yani U Thangani (Women's Voices), led by the Aboriginal and Torres Strait Islander Social Justice Commissioner, is a national initiative that captures the voices, experiences, and aspirations of First Nations women and girls. Its landmark report (2020) and subsequent Implementation Framework call for systemic change across justice, health, housing, education and economic participation — centred on self-determination and cultural strength. See: Australian Human Rights Commission. (2020). *Wiyi Yani U Thangani (Women's Voices): Securing Our Rights, Securing Our Future*. [https://humanrights.gov.au/sites/default/files/document/publication/ahrc\\_wiyi\\_yani\\_u\\_thangani\\_report\\_2020.pdf](https://humanrights.gov.au/sites/default/files/document/publication/ahrc_wiyi_yani_u_thangani_report_2020.pdf).

<sup>254</sup> CEDAW Committee, *General Recommendation No. 34 (2016) on the rights of rural women*, UN Doc CEDAW/C/GC/34 (7 March 2016)

<sup>255</sup> Including through attitudinally, legislatively and holistically innovation.

<sup>256</sup> Migrant and refugee women face limited employment rights, workplace harassment, and inadequate reporting mechanisms, increasing their vulnerability. Australian Human Rights Commission. (2025). Speaking from experience: Report on workplace sexual harassment. [https://humanrights.gov.au/sites/default/files/Speaking%20from%20Experience%20Report\\_0\\_0.pdf](https://humanrights.gov.au/sites/default/files/Speaking%20from%20Experience%20Report_0_0.pdf)

<sup>257</sup> The Workplace Justice Visa and Strengthening Reporting Protections pilots protect migrant workers experiencing sexual harassment and allow migrant women to pursue justice without fear of visa repercussions

<sup>258</sup> Addressing gendered violence requires confronting colonial legacies and intersecting discrimination including racism, sexism, ageism, ableism, homophobia and transphobia and economic inequality.

<sup>259</sup> Including those who live in regional, rural, remote and very remote populations.

<sup>260</sup> Local, state/territory and federal governments endorse and fund the implementation of the National Anti-Racism Framework (2024), Australian Human Rights Commission; the New South Wales Government include sex, sexual orientation, gender identity, sex characteristics, disability, HIV/AIDS status and religion as protected attributes in the New South Wales inciting hatred offence

<sup>261</sup> See the recommendations for victim-survivors on temporary visas in National Advocacy Group on Women on temporary visas experiencing violence. (2022) *Blueprint for reform: Removing barriers to safety for victims/survivors of domestic and family violence who are on temporary visa*. <https://iarc.org.au/wp-content/uploads/2023/01/Blueprint-for-reform-2022-v071222.pdf>.

<sup>262</sup> Defamation laws must be amended to protect victim-survivors so they can safely report the abuse and violence and access the support they need to help them in their recovery. Some jurisdictions like New South Wales have absolute privilege from defamation for reporting to police and particular complaint bodies. All jurisdictions in Australia need absolute privilege from defamation for reporting to police, medical and health professionals, housing providers, education providers, employers and complaints bodies.

<sup>263</sup> See pages 19, 32, 33 and 35: Australian Human Rights Commission. (2021). *Free & Equal: A reform agenda for federal discrimination laws*. [https://humanrights.gov.au/sites/default/files/document/publication/ahrc\\_free\\_equal\\_dec\\_2021.pdf](https://humanrights.gov.au/sites/default/files/document/publication/ahrc_free_equal_dec_2021.pdf). The reform to Australian discrimination law should include a positive duty in discrimination law which applies to all attributes. Law Council of Australia. (2019). *Free and equal: An Australian conversation on human rights*. <https://lawcouncil.au/resources/submissions/free-and-equal-an-australian-conversation-on-human-rights>. This legislation should also be visibly geographic inclusive of those who live in regional, rural, remote and very remote areas.

Instead of incremental changes to each State/Territory laws, Australia should undertake holistic reform of discrimination legislation. See: NSW Law Reform Commission. (2023). Review of the *Anti-Discrimination Act 1977* (NSW): Terms of Reference. <https://lawreform.nsw.gov.au/current-projects/anti-discrimination-act-review/anti-discrimination-act-review-terms-of-reference.html>. Aboriginal and Torres Strait Islander Peoples have reported increased racism since the unsuccessful referendum on an Indigenous Voice to Parliament. See, Collard, S. (2025, March 6). Voice referendum normalised racism towards Indigenous Australians, report finds. *The Guardian*. <https://www.theguardian.com/australia-news/2025/mar/06/voice-referendum-normalised-racism-towards-indigenous-australians-report-finds>.

<sup>264</sup> E.g. accommodation status; subjection to gender-based violence; thought, conscience or religion, irrelevant medical record, irrelevant criminal record, carer's responsibilities, trade union activity, political opinion. <sup>268</sup> We commend the implementation of equal access costs models for Commonwealth anti-discrimination laws and for the same reasons seek the extension of this to state/territory anti-discrimination and related civil proceedings. See: Power to Prevent Coalition. (2023). *Submission to Australian Human Rights Commission Amendment (Costs Protection) Bill 2023*. <https://www.aph.gov.au/DocumentStore.ashx?id=bd24f7f5-a039-46f8-95e7-73e215b94fda&subId=751295>.

<sup>269</sup> Australia has above-average poverty rates among OECD countries. See: (2019). Dugain, V. & Sila, U. (2019). OECD Economics Department Working Papers No. 1539: Income poverty in Australia. OECD. [https://www.oecd.org/en/publications/income-poverty-in-australia\\_322390bf-en.html](https://www.oecd.org/en/publications/income-poverty-in-australia_322390bf-en.html). In 2022, the national poverty rate was 14.4 per cent according to the Productivity Commission – the highest level recorded in the 22 years of the Household Income and Labour Dynamics in Australia survey. Ten per cent of people experience persistent poverty of 3 or more years. See: Productivity Commission. (2024). Fairly equal? Economic mobility in Australia. Australian Government. [https://www.pc.gov.au/research/completed/fairly-equal-mobility?trk=public\\_post\\_comment-text](https://www.pc.gov.au/research/completed/fairly-equal-mobility?trk=public_post_comment-text). Research has also highlighted the gendered impacts of poverty, for example, households whose main income earners were women had almost twice the level of poverty (18% compared with 10%) in 2019-20, compared to those whose main income was a man. See Davidson, P., Bradbury, B. & Wong, M. (2023). *Poverty in Australia 2023: Who is affected* (A poverty & inequality partnership report no.20). Australian Government. [https://www.pc.gov.au/research/completed/fairly-equal-mobility?trk=public\\_post\\_comment-text](https://www.pc.gov.au/research/completed/fairly-equal-mobility?trk=public_post_comment-text). See also: Australian Council of Social Service and UNSW Sydney. (2023). *Poverty in Australia 2023: Who is affected – a poverty & inequality partnership report*. <sup>270</sup> In Australia, households that live in poverty derive a much smaller share of income from wages and salaries, and with greater reliance on income support payments. Source: Dugain, V. & Sila, U. (2019). *OECD Economics Department Working Papers No. 1539: Income poverty in Australia*. OECD. [https://www.oecd.org/en/publications/income-poverty-in-australia\\_322390bf-en.html](https://www.oecd.org/en/publications/income-poverty-in-australia_322390bf-en.html). There are 2,615,390 working age people relying on income support payments, representing about 9.6 per cent of the population. Of these, people on a disability or carer payment make up 43 per cent of recipients, people on an unemployment payment make up 36 per cent, parenting payment recipients are 15 per cent and students are 6 per cent. About 363,000 people on an unemployment payment, or 39 per cent, also have a recorded disability or medical condition that limits their ability to work. There are 2,641,915 age pension recipients. See: Department of Social Services. (2024). *Benefit and Payment Recipient Demographics - quarterly data* [Dataset]. <https://data.gov.au/data/dataset/dss-payment-demographic-data>; Australian Bureau of Statistics. (2025). *National, state and territory population* [Dataset]. <https://www.abs.gov.au/statistics/people/population/national-state-and-territory-population/latest-release>.

<sup>271</sup> United Nations. (1966). *International Covenant on Economic, Social and Cultural Rights*, Article 11. <https://www.ohchr.org/en/instruments-mechanisms/instruments/international-covenant-economic-social-and-cultural-rights>.

<sup>272</sup> Australia's unemployment payment for a single person with no children is the 2<sup>nd</sup> lowest in the OECD at 33 per cent of previous income, compared to the OECD average of 63 per cent of previous income. By contrast, the country scores 5<sup>th</sup> highest on the price level index. See:

OECD. (2023). Benefits in unemployment, share of previous income [Dataset]. <https://www.oecd.org/en/data/indicators/benefits-in-unemployment-share-of-previous-income.html?oeecdcontrol-e55adeb61f-var6=M2&oeecdcontrol-513da3519d-var3=2023>; OECD. (2022). Price level indices. <https://www.oecd.org/en/data/indicators/price-level-indices.html?oeecdcontrol-00b22b2429-var3=2022>.

Although there is no official poverty or living income measure in Australia, at \$391 per week the unemployment payment for a single person with no children is significantly below all available measures as of March 2025. The most recent available relative poverty measure of 50 per cent of median income is \$595 per week, and as of September 2024 the Henderson poverty line was \$636 per week. See: Department of Social Services.(2025). *Single unemployment & sickness benefit – November 1984 to present date* [Dataset]. Australian Government. Australian Government. <https://www.abs.gov.au/statistics/health/disability/disability-ageing-and-carers-australia-summary-findings/latest-release>. People on the main unemployment payment (JobSeeker) comprise 20 per cent of all suicides for working age adults, and people on the Disability Support Pension are 14 per cent. Suicide rates for people on the JobSeeker payment dropped in 2020, when the rate was doubled and reached the level of the Henderson poverty line, a poverty measure established in Australia in the 1970s. See, Australian Institute of Health and Welfare.(2024). *Suicide & self-harm monitoring*. Australian Government. <https://www.aihw.gov.au/suicide-self-harm-monitoring/population-groups/socioeconomically-disadvantaged/income-support-recipients>.

<sup>273</sup> As of December 2024, there were around 615,000 people participating in one of three programs on a compulsory basis as a condition of their income support payment: Workforce Australia, Disability Employment Services and Community Development Program. Annually around 2.8 million payment suspension notices are issued to people with compulsory participation requirements by private employment services providers who are contracted by government to monitor compliance. Payment suspension notices cause psychological distress, and participants report that these are used as a tool of abuse by private providers. Reversing a payment suspension takes unreasonable time and resources on behalf of the payment recipient, and penalty points are often accrued regardless of whether the payment suspension was lawfully applied. When a person's payment is delayed, they often go without food, fall further behind on bills, are late on rent and are forced to try and borrow money, which can strain relationships. Penalty points, including some that are unlawfully applied, accumulate and lead to payment reductions, and eventually cancellation. Compulsory participants have reported that their experience of these programs has led them to be admitted for psychiatric care, while others have disengaged from the social security system entirely, in some cases deciding that being homeless is less harmful to them than the treatment they are exposed to due to compulsory participation requirements. Sources: Department of Employment and Workplace Relations. (2025). *Workforce Australia Targeted Compliance Framework quarterly data*. Privatised employment services providers act under the delegated authority of the employment department secretary to administer certain parts of social security law and have a long track record of using compliance mechanisms as tools of abuse and coercion. Providers that have been publicly exposed as systemic abusers and serial offenders continue to receive new government contracts worth hundreds of millions of dollars. One provider was subject to a hearing of the Disability Royal Commission and was awarded new contracts shortly thereafter. See: Australian Unemployed Workers' Union.(2024). *Payslip harassment: another scandal of maladministration and exploitation in the Australian welfare system*. *AUWU media*. <https://auwu.substack.com/p/payslip-harassment-another-scandal>; Kelly, C..(2024, February 22). *Job agencies suspending Centrelink payments at an alarming rate, data reveals*. *The Guardian*. <https://www.theguardian.com/australia-news/2024/feb/22/centrelink-payments-job-agencies-suspending-case-loads>; Kelly, C.(2024, August 11). *Major job provider accused of trying to get jobseeker to sign off on false work invoice*. *The Guardian*. <https://www.theguardian.com/australia-news/article/2024/aug/11/major-job-provider-accused-of-trying-to-get-jobseeker-to-sign-off-on-false-work-invoice>; DEWR.(2021). *Successful Organisations for Workforce Australia Services*. [https://www.aph.gov.au/Parliamentary\\_Business/Committees/Senate/Community\\_Affairs/PovertyinAustralia/The\\_extent\\_and\\_nature\\_of\\_poverty\\_in\\_Australia](https://www.aph.gov.au/Parliamentary_Business/Committees/Senate/Community_Affairs/PovertyinAustralia/The_extent_and_nature_of_poverty_in_Australia).

<sup>274</sup> Colonisation is recognised as having a fundamental impact on disadvantage and health among Indigenous peoples worldwide through social systems that maintain disparities. In Australia, all compulsory participation requirements disproportionately harm Aboriginal and Torres Strait Islander people, who make up 3.8 per cent of Australia's population. 115,000 compulsory participants in Workforce Australia, Disability Employment Services and Community Development Program are Aboriginal and Torres Strait Islander people, comprising 19 per cent of people in compulsory programs despite being only 11.5 per cent of those who receive an income support payment for working age people. In the December 2024 quarter, 29.5 per cent of all payment suspension notices in the largest program, Workforce Australia Services, were issued to Aboriginal and Torres Strait Islander people, 27.7 per cent to people with disability and 13.6 per cent to parents (some people are represented in more than one cohort). In the Community Development Program, 95 per cent of payment suspensions are issued to Aboriginal and Torres Strait Islander people. See: AIHW.(2024, July). Profile of First Nations people. Australian Government. <https://data.gov.au/data/dataset/dss-payment-demographic-data>. Australia settled a class action lawsuit brought by social security payment recipients compulsorily participating in the Community Development Program on racial discrimination grounds in 2021 despite having received legal advice in 2015 that the program likely breached the *Racial Discrimination Act 1975* (Cth). While the forced labour component of Community Development Program was made voluntary in 2021/22, this was a temporary measure following the class action. It has continued to place people in unpaid work since those activities were made voluntary. A new program is expected to be introduced in late November 2025, with all activities to return to being compulsory in 2027. CDP workers cannot access WorkCover when they experience injuries. There has been an increase of compulsory participants from 25,025 in December 2019 to 31,467 in December 2024. See: Morton, R. (2025, April 19). Flawed cashless welfare cards rebadged. *The Saturday Paper*. <https://www.thesaturdaypaper.com.au/news/politics/2025/04/19/flawed-cashless-welfare-cards-rebadged>; Department of Social Services. (2025). Australian Government Income Management Program. Australian Government. <https://data.gov.au/data/dataset/australian-government-income-management-program>.

Indigenous cash poverty rates in remote and very remote areas were extremely high at 41.0% and 57.1% respectively in 2021, having increased 10.8 per cent over the decade from 2011. The average cost of basic food items is 40 per cent higher in remote stores (which service communities where the population is predominantly Aboriginal and Torres Strait Islander people) than in district centre supermarkets. Social security payment recipients living in these communities receive an allowance of \$9.10 a week on top of their base social security payment to account for higher living costs. Research shows an additional amount of \$145.34 a week would be necessary to bring people living on the main unemployment benefit in remote communities to parity with people in urban areas. See: Northern Territory Government. (2024). NT Market Basket Survey 2023. <https://data.nt.gov.au/dataset/nt-market-basket-survey-2023>; Markham, F. (2024). The Poor Pay More: Why the Remote Area Allowance Needs Urgent Reform. Australian National University Policy Brief. <https://policybrief.anu.edu.au/the-poor-pay-more-why-the-remote-area-allowance-needs-urgent-reform/>.

Social security eligibility criteria maintain a highly paternalistic system that is a hangover from an era where men-controlled women's finances. The partner income test enforces financial dependency on adults, enabling economic and other forms of abuse for people while they are in a relationship and when they are not. Abusers are able to report that a single person is in a relationship to claim that they are committing fraud and not disclosing it, which can cause the target's payment to be reduced, trigger an investigation and in some cases lead to the payment recipient being issued with a debt to repay money they were entitled to and lawfully received. The partner income test also deters some people from entering an intimate relationship as they cannot afford to lose some or all of their social security payment. Women aged 21–28 years in financial hardship were more than three times as likely to report severe partner abuse in a year, and more than 60,000 women aged 15–24 years who experienced violence in 2019 also experienced moderate to very high levels of financial hardship. See: Anti-Poverty Week. (2024). Fast Facts: Women, Violence and Poverty. <https://antipovertyweek.org.au/resources/fast-facts/>; Antipoverty Centre. (2024).. Welfare residualisation and deterrence. <https://drive.google.com/file/d/1Hkceai8GFv0qyBZ-awDK6sfGbsPgIL2n/view>.

<sup>275</sup> We argue that Australia has engaged in an abusive cycle of consultation and inquiry into poverty and related policies, repeatedly asking people in poverty and advocates to contribute evidence of harm and then failing to act on recommendations. A sample of processes and reviews carried out since the last Universal Periodic Review follow. These are grouped by the body that conducted the process, and in addition to these, Australia has failed to implement recommendations from decades-old inquiries such as the 1991 Royal Commission into Aboriginal Deaths in Custody, the 1997 Bringing them Home report and the 2006 parliamentary inquiry into Indigenous stolen wages. <sup>276</sup> Social security payments must be increased sufficiently to lift all people accessing them out of poverty.

<sup>277</sup> Income quarantining, also known as cashless welfare, is a policy that compulsorily restricts purchases of certain products by placing part or all of a social security recipient's payment on to a special debit card that can only be used in stores with compatible payment systems. In Australia, the amount of income restricted is generally 50 to 90 per cent depending on the individual's circumstances. The current products used for income quarantining are the BasicsCard and SmartCard. The SmartCard replaced the Cashless Debit Card in March 2023.

<sup>278</sup> Extreme targeting of payments is designed to restrict eligibility for social security and exclude people who should be entitled to support.

<sup>280</sup> By both government and service providers.

<sup>281</sup> Australia has shown a pattern of negligence and unlawfulness in its conduct towards social security payment recipients over time. The numerous examples that demonstrate this include: the lack of consequences for politicians and bureaucrats who oversaw the unlawful robodebt scheme; further alleged unlawful administration of social security debts through faulty income apportionment; alleged breaches of the International Convention on the Elimination of all forms of Racial Discrimination and other human rights instruments; recent admissions of unlawful administration of “mutual” obligations and ongoing abuses of the Targeted Compliance Framework. See: Morton, R. (2025, March 8). The federal government's failure to deliver on welfare debt reform. *The Saturday Paper*.

Secretary's statement – 21 March 2025. Australian Government. <https://www.dewr.gov.au/assuring-integrity-targeted-compliance-framework/announcements/secretarys-statement-21-march-2025>; Antipoverty Centre. (2025). Employment secretary admits to questionable legality of Centrelink payment penalties, refuses to pause suspensions. *The Antipoverty Centre*.

<https://apcentre.substack.com/p/employment-secretary-admits-to-questionable>; Economic Justice Australia.(2025). EJA Policy Statement on Mutual Obligations. <https://www.ejaustralia.org.au/eja-policy-statement-on-mutual-obligations/>.

<sup>282</sup> Australia implements a range of policies and engages in practices that deter people from accessing a social security payment even if they are eligible for one to reduce the number of people accessing support. These include strict targeting, confusing rules that can lead to debts being raised through no fault of the payment recipient, government failure in duty of care and punitive compulsory programs like mutual obligations and income quarantining.

<sup>283</sup> The most recent Census in 2021 found there were 122,494 people experiencing homelessness – an increase from 116,427 in 2016 (see Table 1.1: Australian Bureau of Statistics. (2023). Estimating Homelessness: Census. Australian Government. <https://www.abs.gov.au/statistics/people/housing/estimating-homelessness-census/latest-release>; for trends and dimensions also see: Clarke, A., Hartley, C. & Pawson, H.(2024). *Australian Homelessness Monitor 2024*.UNSW City Futures Research Centre. <https://cityfutures.ad.a.unsw.edu.au/australian-homelessness-monitor-2024/>.

<sup>284</sup> Disability is a key risk factor for experiencing homelessness (Australian Institute of Health and Welfare. (2024). People with disability in Australia 2024, catalogue number DIS 72, Australian Government. <https://www.aihw.gov.au/getmedia/725731a5-5296-4b8d-8e49-40fa64937fb2/aihw-dis-72-people-with-disability-in-australia-2024.pdf>); People with poor mental health, psychosocial disability and cognitive impairment experience high rates of persistent homelessness and represent the bulk of long-term users of homelessness services (Chailloux, T. (2022). *What many of us face: Homelessness, Disability and Institutional Neglect*. PrecedentAULA.

<https://www5.austlii.edu.au/au/journals/PrecedentAULA/2022/40.html>; Productivity Commission. (2020). *Mental health. Report no.95*. Australian Government. <https://www.pc.gov.au/inquiries/completed/mental-health/report>).

<sup>285</sup> 53,974 women were experiencing homelessness in the 2021 Census, an increase of 10.1% from 2016 (See Overview before Graph 1: Australian Bureau of Statistics. (2023). Estimating Homelessness: Census. Australian Government. <https://www.abs.gov.au/statistics/people/housing/estimating-homelessness-census/latest-release> ; Buxton, A., Martin, C., Ng, M. & Pawson, H. (2023). *Gender, Housing Insecurity and Homelessness in Australia: Data Insights*.UNSW City Futures Research Centre and YWCA Australia. <https://www.ywca.org.au/advocacy/research/gender-housing-insecurity-and-homelessness-in-australia-data-insights/>). Domestic and family violence is the leading cause of homelessness for women (Homelessness Australia. (2024). Homelessness and domestic and family violence: State of response report 2024. <https://homelessnessaustralia.org.au/wp-content/uploads/2024/03/IWD-2024-3.pdf>).

<sup>286</sup> There was an increase in children under 12 of experiencing homelessness from 15,872 in 2016 to 17,646 in 2021. There was also an increase in youth aged 12-18 from 9,955 in 2016 to 11,302 in 2021 (See Table 1: Counts and rates(a) of people experiencing

homelessness by age, Australia, 2006 to 2021: Australian Bureau of Statistics. (2021). Estimating Homelessness: Census. Australian Government. <https://www.abs.gov.au/statistics/people/housing/estimating-homelessness-census/latest-release>.

<sup>287</sup> In the 2021 Census, 24,930 Aboriginal and/or Torres Strait Islander Peoples were experiencing homelessness – an increase of 6.4% from 2016. This represents one in five of people experiencing homelessness in Australia (Australian Bureau of Statistics. (2021). *Estimating Homelessness: Census*. Australian Government. <https://www.abs.gov.au/statistics/people/housing/estimating-homelessness-census/latest-release>. ; See Aboriginal and Torres Strait Islander peoples and Graph 6, which is grossly disproportionate as Aboriginal and Torres Strait Islander Peoples make up about 3.2% of the Australian population (Australian Bureau of Statistics. (2021). *Aboriginal and Torres Strait Islander People: Census*. Australian Government. <https://www.abs.gov.au/statistics/people/aboriginal-and-torres-strait-islander-peoples/aboriginal-and-torres-strait-islander-people-census/latest-release>; Australian Bureau of Statistics. , Aboriginal and Torres Strait Islander peoples experiencing homelessness. Australian Government. <https://www.abs.gov.au/articles/aboriginal-and-torres-strait-islander-peoples-experiencing-homelessness> . Aboriginal and Torres Strait Islander Peoples experience racial and spatial housing injustice. Rates of homelessness in Australia increase with distance from capital and major cities, and are highest for Aboriginal and Torres Strait Islander Peoples in remote and very remote areas: Batterham, D., Cigdem-Bayram, M., Parkinson, S., & Reynolds, M. (2024). The changing geography of homelessness in Australia (2001–21) and its structural drivers: Final Report No. 429. AHURI. <https://www.ahuri.edu.au/research/final-reports/429> - see Figure 5: Number and rate of homeless by broad area type: 2001, 2006, 2011, 2016 and 2021 (p. 33), Figure 2: National shares (%) of homeless persons and population by broad area type: 2001, 2006, 2011, 2016 and 2021 (p. 27), Figure 4: Lowest and highest rates of homelessness by nationwide decile, Australian SA3s, 2021 (p. 32); Australian Housing and Urban Research Institute. (2024). Empowering Indigenous communities to reduce homelessness is key to Closing the Gap. <https://www.ahuri.edu.au/analysis/brief/empowering-indigenous-communities-reduce-homelessness-key-closing-gap>.

<sup>288</sup> The proportion of social housing households in Australia has declined from 4.7% of all households in 2013 to 4.1% in 2023 (Australian Institute of Health and Welfare. (2025). Housing Assistance in Australia 2024. Australian Government. <https://www.aihw.gov.au/reports/housing-assistance/housing-assistance-in-australia/contents/summary>. Annual new lettings by social housing providers declined from 32,000 in 1991 to 52,000 in 2023 – a reduction of 38% (See page 9: Aminpour, F., Clarke, A. & Eagles, K. & et al. (2024). Australian Homelessness Monitor. UNSW City Futures Research Centre. [https://homelessnessaustralia.org.au/wp-content/uploads/2024/12/AHM\\_final.pdf](https://homelessnessaustralia.org.au/wp-content/uploads/2024/12/AHM_final.pdf).

<sup>289</sup> The deterioration of housing affordability in Australia has been widespread, and it reached its worst level on record in 2023 (See page 95: National Housing Supply and Affordability Council. State of the Housing System 2024. Australian Government. <https://nhsac.gov.au/sites/nhsac.gov.au/files/2024-05/state-of-the-housing-system-2024.pdf>. Between March 2020 and June 2024, the median advertised weekly rent for all property types across all cities and regions rose from \$413 to \$624 – a 51% increase (See page 34: Aminpour, F., Clarke, A. & Eagles, K. & et al. (2024). *Australian Homelessness Monitor*. UNSW City Futures Research Centre. [https://homelessnessaustralia.org.au/wp-content/uploads/2024/12/AHM\\_final.pdf](https://homelessnessaustralia.org.au/wp-content/uploads/2024/12/AHM_final.pdf).) Even where housing is affordable, it may be inadequate in other ways. For example, it may be of such poor quality that it negatively affect's a person's health; it may be too expensive to heat or cool, or be located far from employment opportunities – causing residents to incur very high commuting costs. Research shows that integrating housing, planning, transport and employment policies is critical to mitigating the risks of housing affordability stress and displacement for lower income householders, while offering increased accessibility to key resources and services (see Crowe, A. & Rowley, S. (2024). *Measuring housing affordability: Scoping the real cost of housing: AHURI Final Report No. 427*. . AHURI. <https://www.ahuri.edu.au/research/final-reports/427>.

<sup>290</sup> Grossly insufficient access to tenant support services throughout Australia, including legal help, was reflected in [numerous submissions](#) to the Senate Community Affairs References Committee Inquiry into the Worsening Rent Crisis in Australia, including submissions by the National Association of Renters' Organisations, Women's Legal Services Australia, and Darwin Community Legal Service. Correspondingly, the Chair's Recommendation 23 (at p. 194) in the [Final Report](#) in December 2023 was that 'The .. Australian Government coordinate with state and territory governments to ensure that tenancy support services are fully funded, including to help tenants navigate the appeals system.'

<sup>291</sup> Measures to improve the state of the housing system should also include reforms to Australia's taxation system to support supply and affordability ((National Housing Supply and Affordability Council. (2024). State of the Housing System 2024. Australian Government. <https://nhsac.gov.au/sites/nhsac.gov.au/files/2024-05/state-of-the-housing-system-2024.pdf>; Davidson, P. & Hall, J. (2025). Homes for living, not wealth creation: Tax and expenditure reforms to improve housing affordability and equity. ACOSS. <https://www.acoss.org.au/wp-content/uploads/2025/03/acoss-housing-tax-policy-paper25-1.pdf>.

<sup>292</sup> The National Aboriginal and Torres Strait Islander Housing Association calls for a long-term national Indigenous housing plan developed with Indigenous people (see Boltje, S. & Fryer, B. (2025). First Nations people experience higher rates of unmet housing needs, report finds. *ABC News*. <https://www.abc.net.au/news/2025-02-12/report-into-unmet-housing-needs-of-indigenous-people/104903982>; Victorian Aboriginal Child Care Agency. (2023). Submission to the National Housing and Homelessness Plan. <https://engage.dss.gov.au/wp-content/uploads/2024/01/Victorian-Aboriginal-Child-Care-Agency-23208-NHHP-Submission-Redacted.pdf>; Aboriginal Housing Victoria. (2023). Submission to the National Housing and Homelessness Plan. <https://engage.dss.gov.au/wp-content/uploads/2024/01/AHV-AHHF-NHHP-Submission-Redacted.pdf>; Benedict, R., Habibis, D., Isherwood, L. & et al. Indigenous housing support in Australia: the lay of the land: *Final Report no. 434*. AHURI. [https://www.ahuri.edu.au/sites/default/files/documents/2025-02/AHURI-Final-Report-434-Indigenous-housing-support-in-Australia\\_the-lay-of-the-land.pdf](https://www.ahuri.edu.au/sites/default/files/documents/2025-02/AHURI-Final-Report-434-Indigenous-housing-support-in-Australia_the-lay-of-the-land.pdf) explains that there is a strong need for a national strategic framework to guide future housing for Aboriginal and Torres Strait Islander Peoples.

<sup>293</sup> Article 11 *International Covenant of Economic, Social and Cultural Rights*. UN CESCR, General Comment No 4: (1991) E/1992/23 explains that the right to adequate housing comprises seven elements: a) legal security of tenure; b) availability of services, materials, facilities and infrastructure; c) affordability; d) habitability; e) accessibility; f) location; g) cultural adequacy. Each of these elements must be present for housing to be adequate.

<sup>294</sup> See: AHURI. (2024). What does 'Housing as a human right' mean in Australia. <https://www.ahuri.edu.au/analysis/brief/what-does-housing-human-right-mean-australia>.

<sup>295</sup> For example regarding housing habitability and Aboriginal and Torres Strait Islander Peoples, see: Benedict, R., Brambilla, A., & Greal, L. & et al. (2021). *Sustainable Indigenous housing in regional and remote Australia, Final Report no 368*. (See Fighting for Humane Housing in Aboriginal Communities: The Santa Teresa Cases' in Jessie Hohmann section: Australian Housing and Urban Research Institute. <https://www.ahuri.edu.au/research/final-reports/368>; Hohmann, J. & Human Rights Law Centre, Human Rights Act and UTS. (2025). *The right to housing in Australia*. <https://www.hrlc.org.au/app/uploads/2025/02/RightToHousingReport2025.pdf>. See also page 17: Anthony, T. & Hohmann, J. (2024). Indigenous Housing Rights and Colonial Sovereignty: Self-Determination and Housing Rights beyond a White Possessive Frame. *Social & Legal Studies* 34(3), 339-360. <https://doi.org/10.1177/09646639241227120>.

<sup>296</sup> Australian Human Rights Commission. (2021). *Adaptable housing for people with disability in Australia*. <https://humanrights.gov.au/our-work/disability-rights/publications/adaptable-housing-people-disability-australia>.

<sup>297</sup> See Baker, E., Dockery, M., Isherwood, L. & et al. (2022). 'What works' to sustain Indigenous tenancies in Australia Final Report no. 374.AHURI. [https://www.ahuri.edu.au/sites/default/files/documents/2022-02/AHURI-Final-Report-374-What-works-to-sustain-Indigenous-tenancies-in-Australia\\_1.pdf](https://www.ahuri.edu.au/sites/default/files/documents/2022-02/AHURI-Final-Report-374-What-works-to-sustain-Indigenous-tenancies-in-Australia_1.pdf).

<sup>298</sup> This includes reliable and safe access to drinking water, electricity and communications services (see: Infrastructure Partnerships Australia. (2023).. Remote Communities: Improving Access to Essential Services. <https://infrastructure.org.au/wp-content/uploads/2023/10/Remote-communities-Improving-access-to-essential-services.pdf> ). People in more than 400 remote or regional communities lack access to good-quality drinking water, while approximately 8% of Australia's population is not included in reporting on access to clean water (see Grafton, R., Manero, A., Rose, E. & et al. (2022).Measuring the gaps in drinking water quality and policy across regional and remote Australia. *npj Clean Water* 5(32). <https://doi.org/10.1038/s41545-022-00174-1>). The lack of access to essential services disproportionately impacts Aboriginal and Torres Strait Islander Peoples (see Moskos, M., Isherwood, L., Dockery, A.M., Habibis, D., Grealy, L., Benedict, R., Harris, M., Singh, R. and Lea, T. (2024).Indigenous people's mobility and its impact on remote infrastructural needs: an exploratory study: Final Report 42.AHURI. <https://www.ahuri.edu.au/sites/default/files/documents/2024-06/AHURI-Final-report-423-Indigenous-peoples-mobility-and-its-impact-on-remote-infrastructural-needs-an-exploratory-study.pdf>). It is estimated that at least 250,000 Aboriginal and Torres Strait Islander People are unable to reliably access safe and healthy water, and as such experience chronic and hygiene-related diseases at higher rates than other people in Australia (see: Engineers Without Borders Australia Engineering. (2022).Clean, safe water needed for remote Indigenous communities. <https://ewb.org.au/blog/2022/11/29/clean-safe-water-needed-for-remote-indigenous-communities/#:~:text=The%20Engineers%20Without%20Borders%20Australia,the%20systems%3B%20and%20the%20governance>).

<sup>299</sup> See Hohmann, J. & Human Rights Law Centre, Human Rights Act and UTS. (2025). *The right to housing in Australia*. <https://www.hrlc.org.au/app/uploads/2025/02/RightToHousingReport2025.pdf>.

<sup>300</sup> Binding, national legislative standards are needed to better protect the right to adequate housing for renters. Australia has made some progress towards improving standards for renters, including through the National Cabinet agreement 'A Better Deal for Renters' which aims to harmonise and strengthen renters' rights across Australia. However, this agreement has not been implemented in full and further reform is needed (see: National Shelter and National Association of Renters' Organisations. (2025). The Rental Report: A Performance Report on the Progress of A Better Deal for Renters. <https://tenantsql.org.au/wp-content/uploads/2025/02/2408-National-Cabinet-Rental-Report-Card.pdf>.

<sup>301</sup> As well as being a violation of the right to adequate housing, homelessness can also violate other rights including the right to privacy and the right to health (see Australian Human Rights Commission. (2008). Homelessness is a Human Rights Issue. <https://humanrights.gov.au/our-work/publications/homelessness-human-rights-issue-2008>).

<sup>302</sup> People experiencing homelessness are also criminalised through laws, policies and practices that penalise and criminalise life-sustaining activities in public spaces (see Human Rights Council. (2024). Breaking the cycle: ending the criminalization of homelessness and poverty: *Report of the Special Rapporteur on extreme poverty and human rights*, A/HRC/56/61/Add.3. United Nations. [https://www.ohchr.org/sites/default/files/2024-11/a-hrc-56-61-add3-eng\\_0.pdf](https://www.ohchr.org/sites/default/files/2024-11/a-hrc-56-61-add3-eng_0.pdf)).

<sup>303</sup> This reform should include investment in measures to reduce homelessness, including funding legal and tenancy support services to ensure people experiencing homelessness can access legal advice and representation.

<sup>304</sup> The Human Rights Commission states "climate change threatens the enjoyment of all human rights, including the rights to health, water, food, housing, self-determination, and life itself. Climate change is man-made. It is a result of policy choices that breach the affirmative obligations of States to respect, protect and fulfil human rights": Office of the High Commissioner. (2018, October). Human Rights and Climate Change. *United Nations Human Rights*. The Paris Agreement preamble states "Parties should, when taking action to address climate change, respect, promote and consider their respective obligations on human rights, the right to health, the rights of indigenous peoples, local communities, migrants, children, persons with disabilities and people in vulnerable situations and the right to development, as well as gender equality, empowerment of women and intergenerational equity."

<sup>305</sup> Since 2022, the Australian federal government has: Submitted an updated version of its Nationally Determined Contribution to the UNFCCC. The update commits Australia to reducing its emissions to 43% below 2005 levels by 2030, net zero by 2050 and achieve 82% renewable energy by 2030; In 2022, introduced a capacity investment scheme to invest in renewable energy and storage (further expanded in 2023): Rewiring the Nation Fund to provide \$20 billion in concessional loans and equity for investment in Transmission, to support coal power phase out; In 2023, reformed the Safeguard Mechanism (sets emissions limits for Australia's largest industrial facilities exceeding 100,000 tonnes of CO<sub>2</sub>e) to strengthen the impact on emissions reductions; Established the Hydrogen head start program to invest in new large scale renewable hydrogen projects; In 2023, legislated a vehicle fuel efficiency standard to commence 1 July 2025; In September 2023, achieved a key milestone under its Nationally Determined Contribution (NDC) with the cancellation of all Commonwealth-held Kyoto Protocol units; Legislated Future Made in Australia Act in 2024 and 2025, which focuses on attracting investment to make Australia a leader in renewable energy. Australia has committed to investing \$22.7 billion over the next decade to build a Future Made in Australia; In November 2023, released the Net Zero in Government Operations strategy. The strategy commits to reducing the Australian Public Service's emissions to Net Zero by 2030; and Drafted sector plans to achieve net zero emissions by 2050 - due to be released in the second half of 2025.

<sup>306</sup> Climate Action Tracker. (2024, November). <https://climateactiontracker.org/countries/australia/>.

<sup>307</sup> Grudnoff, M. and Campbell, R. (2025). *Fossil fuel subsidies in Australia 2025 Federal and state government assistance to major producers and users of fossil fuels in 2024–25*. The Australia Institute. <https://australiainstitute.org.au/wp-content/uploads/2025/03/PI669-Fossil-fuel-subsidies-2025-Web.pdf>. Parties to the UNFCCC are currently required to report on their domestic emissions, meaning that large-scale fossil fuel producers are not accountable for the emissions released when their exports are burned overseas. As such, Australia can both reduce its reported emissions, while remaining in the top three global exporters of fossil gas and associated pollution.

<sup>308</sup> Hare, B. (2024). Dug up in Australia, burned around the world – exporting fossil fuels undermines climate targets. *Climate Analytics*. <https://climateanalytics.org/comment/dug-up-in-australia-burned-around-the-world-exporting-fossil-fuels-undermines-climate-targets>.

<sup>309</sup> Australia has no policy in place to cap, restrict or reduce its fossil fuel export production or subsidies, nor any targets or plans for doing so in the future: Australian Human Rights Institute. (2024, August). *Escalation: The destructive force of Australia's fossil fuel exports on our climate*, 17. <https://www.humanrights.unsw.edu.au/news/new-data-australias-fossil-fuel-exports-places-us-among-worlds-biggest-climate-polluters>. This policy and regulatory vacuum is exposing identifiable individuals and communities in Australia to heightening (and increasingly materialising) threats to rights to life, home life and cultural practice (among others). It is in contravention of Australia's international law obligations to respect and protect the human rights of those within its territory, including against harms by third-party fossil fuel exporting corporations)

<sup>310</sup> United Nations. (2023). *Agreement under the United Nations Convention on the Law of the Sea on the conservation and sustainable use of marine biological diversity of areas beyond national jurisdiction*. Retrieved June 23, 2025, from [https://treaties.un.org/doc/Treaties/2023/06/20230620%2004-28%20PM/Ch\\_XXI\\_10.pdf](https://treaties.un.org/doc/Treaties/2023/06/20230620%2004-28%20PM/Ch_XXI_10.pdf).

<sup>311</sup> Including children, young people, First Nations people, older people, people with a disability, women, people experiencing poverty and inequality and rural, remote, and very remote communities who will experience negative impacts on health and wellbeing. Children disproportionately suffer from climate disruptions: See, eg, Hickman, C. et al. (2021). Climate anxiety in children and young people and their beliefs about government responses to climate change: a global survey. *Lancet Planet Health*, 5(12), e863 - e873. [https://www.thelancet.com/journals/lanplh/article/PIIS2542-5196\(21\)00278-3/](https://www.thelancet.com/journals/lanplh/article/PIIS2542-5196(21)00278-3/). Aboriginal communities are disproportionately impacted by climate change, with inadequate housing, little shade, and a lack of water security: Standen, J. C., Spencer, J., Lee, G. W., Van Buskirk, J., Matthews, V., Hanigan, I., Boylan, S., Jegasothy, E., Breth-Petersen, M., Morgan, G. G. (2022). Aboriginal Population and Climate Change in Australia: Implications for Health and Adaptation Planning. *Int J Environ Res Public Health*, 19(12):7502. <https://pmc.ncbi.nlm.nih.gov/articles/PMC9223431/>. Torres Strait Islanders and Aboriginal Islanders are particularly vulnerable to sea inundation: United Nations Office of the High Commissioner for Human Rights. (2022). *Australia violated Torres Strait Islanders' rights to enjoy culture and family life, UN Committee finds*. United Nations. <https://www.ohchr.org/en/press-releases/2022/09/australia-violated-torres-strait-islanders-rights-enjoy-culture-and-family>.

<sup>312</sup> This failure is particularly acute in the Pacific, where Australia is the major donor but climate finance continues to fall well short of need. Between 2014 and 2019, around USD 3.3 billion was committed for climate projects in the Pacific, an average of USD 550 million per year. This is well short of the approximately USD 1 billion in adaptation finance that the International Monetary Fund estimates is needed annually across the region, or the USD 5.2 billion needed by 2030 to implement renewable energy plans in Pacific Island countries. Loss and damage from extreme climate events already cost Pacific Islands between USD 2.7 and 7 billion between 2000 and 2022, and is expected to grow significantly as climate impacts worsen. For more, see Oxfam Australia, Pacific Islands Climate Action Network, Climate Action Network Australia, NZ CAN and ActionAid Australia. (2024). *Seizing the Moment: A New Climate Finance Goal that delivers for the Pacific*. <https://www.oxfam.org.au/wp-content/uploads/2024/08/14246-NCQG-Policy-Paper-WEB.pdf>.

<sup>313</sup> 'Fair share' is calculated on the basis of historical emissions and capacity to pay. Australia's fair share contribution to the New Collective Quantified Goal on Climate Finance is still being calculated in the wake of the COP29 decision.

<sup>314</sup> In addition to existing Official Development Assistance.

<sup>315</sup> This must emphasise streamlined access and direct funding for least developed countries, small island developing states, local communities and civil society groups. This funding should also recognise the disproportionate impacts borne by systemically marginalised communities including but not limited to women and girls, people with disabilities, and children.

<sup>316</sup> The Colvin and Glasser Reviews of the National Emergency Management Systems acknowledge the need for improvements in disaster risk reduction and resilience. Colvin, A. (2024). *Independent Review of Commonwealth Disaster Funding*. Australian Government. <https://www.nema.gov.au/sites/default/files/2024-10/Independent%20Review%20of%20Commonwealth%20Disaster%20Funding%20-%20Final%20report%20-%20Medium%20Res.PDF>. Dr Glasser, R. - <sup>325</sup> See Special Rapporteur on the right to privacy. (2019, February). *Privacy and technology from a gender perspective: report*. A/HRC/40/63, [56] and [59]. <https://www.ohchr.org/en/documents/thematic-reports/ahrc4063-privacy-and-technology-gender-perspective-report>. Office of the United Nations High Commissioner for Human Rights. (2022, August). *The right to privacy in the digital age*. UN Doc A/HRC/51/17, [46]. <https://www.ohchr.org/en/documents/thematic-reports/ahrc5117-right-privacy-digital-age>. For example, facial recognition technology is largely beyond the scope of the existing Australian privacy framework. These developments exemplify ‘function creep’, where technologies are used beyond their initially intended purpose “most notably against marginalised populations” and risk exacerbating profiling against “people of a particular racial or ethnic group”. Australian Human Rights Commission. (2023, April 5). Response No 461917447 to Attorney-General’s Department. *Privacy Act Review Report*, [74] and [97]; Low digital literacy rates due to lack of infrastructure, and reduced opportunities for education and digital skills training contribute to the vulnerability of remote communities.
- <sup>326</sup> The Privacy and Other Legislation Amendment Bill 2024 is “only the first tranche of the intended reforms”. Other measures, including the introduction of an objective ‘fair and reasonable test’, amendment to definitions of ‘personal information’ and ‘collect’, introduction of a definition of ‘consent’, and introduction of a direct right of action for a breach of privacy, have been deferred. Accordingly, further reform is required to ensure Australia’s privacy framework offers sufficient protection: Justice and Equity Centre, Submission No 24 to Senate Standing Committees on Legal and Constitutional Affairs, Parliament of Australia. (2024, 11 October). *Inquiry into Privacy and Other Legislation Amendment Bill 2024*, 2. See also, Kemp, K. (2024, 12 September). Long overdue Australian privacy law reform is here and it’s still not fit for the digital era. *The Conversation*. <https://theconversation.com/long-overdue-australian-privacy-law-reform-is-here-and-its-still-not-fit-for-the-digital-era-238214>. <sup>353</sup> The ILO defines ‘workplace’ as “any premises or part of a premises which are made available to any person as a place of work.” Note that domestic premises may also be included. See ILO. (n.d.). *Workplaces*. <https://www.ilo.org/topics/labour-administration-and-inspection/resources-library/occupational-safety-and-health-guide-labour-inspectors-and-other/workplaces>

<sup>354</sup> AHRC. (2020, March 5). Respect@Work: Sexual Harassment National Inquiry Report (2020). <https://humanrights.gov.au/our-work/sex-discrimination/publications/respectwork-sexual-harassment-national-inquiry-report-2020> Furthermore, women who are also under 30 years old, LGBTIQ+, Aboriginal or Torres Strait Islander, have a disability, are from a CALD background, are migrant workers and/or hold a temporary visa, or are in insecure work, and women in remote and rural areas are even more likely to experience sexual harassment in the workplace. See pages 27-28 in Flax, G., Gebicki, C. & Meagher, A. (2018). Everyone’s Business: Fourth National Survey on Sexual Harassment in Australian Workplaces. AHRC.; See page 92 in Baird, M., Cooper, R., Hill, E., Probyn, E., & Vromen, A. (2018). *Women and the Future of Work (Report 1 of the Australian Women’s Working Futures Project, 2018)*. Unwanted Sexual Advances at Work: Variations by Employment Arrangement in a Sample of Working Australians. *Australian and New Zealand Journal of Public Health* 33(2), 173-9. <https://doi.org/10.1111/j.1753-6405.2009.00366.x>; pages 14-15 in ACTU’s submission: Australian Council of Trade Unions. (2019). Submission by the Australian Council of Trade Unions to the Australian Human Rights Commission.

<sup>355</sup> Strict NDAs typically include blanket confidentiality clauses that prohibit disclosing the sexual harassment to anyone, blanket non-disparagement clauses and contain no time limits. And although aspects of these agreements may be deemed unenforceable if challenged in court, in practice, victim-survivors end up abiding by the terms for fear of legal action. This often means that disclosures can’t be made to the police, to medical and psychological professionals, parliamentary inquiries, relevant services (such as Victims’ Services, Centrelink), workers’ compensation authorities, and family members. Victim-survivors are not only prevented from seeking appropriate care and support, but their stories are silenced, meaning that patterns of sexual harassment in workplaces are invisible. NDAs also often prevent the administration of justice, if victim-survivors are deterred from reporting conduct which might amount to a criminal act, such as sexual assault (which is often a part of sexual harassment).

<sup>356</sup> The threat of legal action taken under Australia’s onerous defamation laws often prevents women who have experience sexual harassment (or assault) in the workplace from reporting the conduct to law enforcement, housing bodies, employers, and parliamentary bodies, and from being able to access appropriate medical and psychological support. They also prevent the systemic addressing of sexual harassment in the workplace.

<sup>357</sup> Relevant disclosures include reports to police and parliamentary inquiries, medical and psychological professionals, employers, housing providers, education providers, workers’ compensation providers, and various services such as Victims’ Services.

<sup>358</sup> For example, the ‘Pacific Australian Labour Mobility Scheme’, is a government-to-government program with some 39,000 workers from the Pacific and Timor-Leste nations, has resulted in worker and wage exploitation, prevention of contracts, threats of visa removal by employers, lack of access to health services, superannuation and taxes, and exposure to chemical toxicity, with insufficient protections; Adhikari, A., Anderson, L., & Harrington, M. (2023, December 21). *The PALM scheme: Labour rights for our Pacific partners*. The Australia Institute. <https://australiainstitute.org.au/report/the-palm-scheme/>; Cockayne, J., Kagan, S., & Ng, F. <sup>359</sup> United Nations Special Rapporteur on contemporary forms of slavery, including its causes and consequences. (2024, November). *Professor Tomoya Obokata Country visit to Australia, 14– 27 November 2024*. United Nations.

<https://www.ohchr.org/sites/default/files/documents/issues/slavery/sr/statements/2024-11-27-eom-australia-sr-slavery-en.pdf>; Immigration Advice and Rights Centre. (2024, November). *Preventing Migrant Worker Exploitation in Australia: A Report for the United Nations Special Rapporteur on Contemporary Forms of Slavery*. <https://iarc.org.au/wp-content/uploads/2024/11/IARC-Report-for-the-UN-Special-Rapporteur-on-contemporary-forms-of-slavery-November-2024.pdf>. This recommendation is relevant for a variety of workers on temporary visas, including: student visa holders, working holiday makers, employer-sponsored visa holders, and workers participating in the Pacific Australian Labour Mobility (PALM) Scheme.

<sup>360</sup> As recommended by the *Report of the Migrant Workers' Taskforce*, 2019, and accepted by the Government in the same year. See: DEWR. (2019). *Report of the Migrant Workers' Taskforce*. Australian Government. <https://www.dewr.gov.au/migrant-workers-taskforce/resources/report-migrant-workers-taskforce>.

<sup>361</sup> The Strengthening Reporting Protections and Workplace Justice Visa Pilots were introduced on 1 July 2024 to ensure that temporary migrant workers experiencing workplace exploitation could safely pursue claims relating to their exploitation without their visa being cancelled or being required to leave Australia and abandon their claims. A key requirement for workers to receive the benefit of these pilot programs is certification of their workplace exploitation claim by a government agency or an 'Accredited Third Party'. Presently, there are only three free non-union legal services that are Accredited Third Parties and able to provide employment law advice, in a country where union membership is sitting at 13.1% as of August 2024 (See: Australian Bureau of Statistics. (2024). *Trade union membership, August 2024: Catalogue No. 6335.0*. <https://www.abs.gov.au/statistics/labour/earnings-and-working-conditions/trade-union-membership/latest-release>) and is even lower amongst temporary migrant workers. Until the Australian Government expands the current list of Accredited Third Parties, temporary migrant workers will not benefit from these pilot programs to their fullest extent. Moreover, specialist community legal centres providing free, confidential immigration advice to migrant workers need increased funding to meet rising demand due to the pilots.

<sup>362</sup> Certain industries rely on temporary migrant workers which is often facilitated through unscrupulous labour hire companies. See *Report of the Migrant Workers' Taskforce Report*, recommendation 14. Labour hire licensing schemes exist in Queensland, Victoria and South Australia to regulate these businesses through reporting and compliance measures. The Australian Government should follow suit and establish a national labour hire regulatory scheme, ensuring all labour hire businesses in Australia are licensed, compliant and held to the same standards.

<sup>363</sup> A 2023 study by the Grattan Institute shows that migrant workers in Australia are 40% more likely to be underpaid than non-migrant workers. Workers in Australia, particularly workers from culturally and linguistically diverse backgrounds or on temporary visas, find current legal pathways to recover underpaid wages costly, time consuming, overwhelming or specifically unavailable to certain cohorts of Australian workers who are at greater risk of wage theft and exploitation. (*Report of the Migrant Workers' Taskforce*, 2019).

<sup>366</sup> South Australia, Western Australia and Tasmania still criminalize many of the actions associated with the normal operation of sex work, resulting in a climate in which the human rights of sex workers can be easily exploited. South Australia still criminalizes the following actions or practices associated with sex work under the *Summary Offences Act 1953* (SA): living on the earnings of prostitution (s 26), being the occupier of a premises 'frequented by prostitutes' (s 21), and being found in a place 'frequented by prostitutes' without reasonable excuse (s 21). Western Australia still criminalizes the following actions or practices associated with sex work, including but not limited to, living off the earnings of sex work, and operating a brothel, whether as owner, tenant, manager or landlord (s 190 of the *Criminal Code Act Compilation Act 1913* (WA). Tasmania still criminalizes owning or managing 'commercial sexual services businesses', s 7 of the *Sex Industry Offences Act 2005* (Tas).

<sup>380</sup> See submissions in: Parliament of New South Wales. (2025). *Modern slavery risks faced by temporary migrant workers in rural and regional New South Wales*. <https://www.parliament.nsw.gov.au/committees/inquiries/Pages/inquiry-details.aspx?pk=3079>.

<sup>381</sup> Australia's International Development and Humanitarian Policies are underpinned by a rights-based approach. This is reflected in the recently developed International Disability Equity and Rights Strategy (drawing on the Convention on the Rights of Persons with Disabilities), and the International Gender Equity and Rights Strategy (reflecting the Convention on the Elimination of Discrimination Against Women), appointment of an Ambassador for First Nations People and development of a [Guidance Note on Locally-Led Development](#). A planned LGBTQIA+ Human Rights Strategy has not yet been released by DFAT, but is foreshadowed in the International Development Policy.

<sup>382</sup> Australia's Federal Budget for Financial Year 2025-26 allocated an estimated \$5.097 billion to ODA. This ODA allocation amounts to 0.18% of Australia's Gross National Income (GNI). This is Australia's lowest level of ODA/GNI since the 1961 establishment of the Development Assistance Committee (DAC) of the Organisation for Economic Co-operation and Development (OECD).

<sup>383</sup> SDG Target 17.2.

<sup>384</sup> The 2021 DAC [Recommendation on Enabling Civil Society in Development Co-operation and Humanitarian Assistance](#) recognises the importance of civil society organisations to strengthening democracy and the crucial role of states to support civil society organisations, including financially, to safeguard civic space. DAC statistics (see: OECD. (2025). *Statistics based on DAC Members' reporting to the CRS, 2022-2023*. [https://one.oecd.org/document/DCD\(2025\)4/en/pdf](https://one.oecd.org/document/DCD(2025)4/en/pdf)) show that Australian ODA delivered to and through civil society organisations has declined, in real terms, between 2014 and 2023. In 2022 and in 2023: 12% of Australian bilateral ODA was delivered to and through civil society actors. This is behind other actors such as: Belgium (2023: 23%); Canada (2023: 15%); Denmark (2023: 27%); Finland (2023: 19%); Netherlands (2023: 22%); New Zealand (2023: 14%); Norway (2023: 28%); Sweden (2023: 33%); Switzerland (2023: 27%); and United States (2023: 19%).

<sup>385</sup> Freedom House, in its 2025 annual report (Freedom House. (2025). *The Uphill Battle to Safeguard Rights*.

<https://freedomhouse.org/report/freedom-world/2025/uphill-battle-to-safeguard-rights>), assesses that global freedom has declined for the 19<sup>th</sup> consecutive year. This is an assessment that political rights and civil liberties have deteriorated in more countries globally than they have expanded. The report notes that support for civil society, including democracy advocates and human rights defenders, will be essential to preserve freedom and democracy.

<sup>386</sup> In 2021, the Observatory on the Universality of Rights (see The Observatory on the Universality of Rights. (2021). *Rights at risk*. [https://www.oursplatform.org/wp-content/uploads/1.-RightAtRisk\\_TimeForAction\\_June2021-1.pdf](https://www.oursplatform.org/wp-content/uploads/1.-RightAtRisk_TimeForAction_June2021-1.pdf)) [https://www.oursplatform.org/wp-content/uploads/1.-RightAtRisk\\_TimeForAction\\_June2021-1.pdf](https://www.oursplatform.org/wp-content/uploads/1.-RightAtRisk_TimeForAction_June2021-1.pdf) identified that anti-rights actors were growing financial and political power, with a rise in attacks on the rights of migrants, ethnically diverse persons, religious minorities, LGBTQIA+ people, women and impoverished communities.

<sup>387</sup> The Aid Worker Security Database (see AWSO. (n.d.) *Aid worker security database* [Dataset]. <https://www.aidworkersecurity.org/>) reports that 384 humanitarian workers were killed in 2024, 147 per cent of the rolling three-year average.

<sup>388</sup> In September 2023, Australia, announced the formation of a Ministerial Group for the Protection of Humanitarian Personnel with Jordan, Switzerland, Indonesia, Sierra Leone, the United Kingdom, Japan, Brazil and Colombia (see: Minister for Foreign Affairs. (2024). *Joint statement towards a new declaration for the Protection of Humanitarian Personnel*. <https://www.foreignminister.gov.au/minister/penny-wong/media-release/joint-statement-towards-new-declaration-protection-humanitarian-personnel>). The group aims to champion IHL and drive action to protect humanitarian personnel. This initiative builds on the adoption of UN Security Council Resolution 2730 (May 2024), which aimed to strengthen international commitment to the protection of humanitarian workers.

<sup>389</sup> Where humanitarian assistance is impacted by Australian legislation, this may contravene International Humanitarian Law (e.g. Fourth Geneva Convention, Art. 23; Additional Protocol I, Art. 70) by impeding the rapid passage of humanitarian relief.

<sup>390</sup> Carve-outs from sanctions and counter-terrorism legislation to facilitate humanitarian action have been adopted by the UN and other states. UN Security Council Resolution 2664 sets out a broad exemption for Member States from UN sanctions, for the purpose of supporting humanitarian action or action that supports basic human needs. Other state jurisdictions have also implemented a variety of different legal carve-outs to their own terrorism and sanctions law to facilitate humanitarian action, including: Canada, the European Union, United Kingdom and the United States (see: Lester, M., & Kane, M. (n.d.) *Charities & NGOs*. Global Sanctions. <https://globalsanctions.com/guidance/charities-ngos/>).
